**APRIL 2011**

## **INFORMATION LETTER/UPDATE:**

### **MAJOR CALENDAR CHANGES:**

**Added: Law Enforcement**

**SEE NEW CALENDAR**

**Added: Civilian**

**SEE NEW CALENDAR**

### **GENERAL INFORMATION:**

I am sorry this letter is late, I wanted to include the below incident in my monthly update.

On Thursday, 31 March 2011, I was running some training in West Texas for a Law Enforcement agency when a personally owned firearm exploded. Luckily, the officer firing the weapon was not injured. Below are some of the photos of the weapon. This is most serious weapon mishap I have seen in my career.

The Victim.....a nice Rock River rifle..

.....

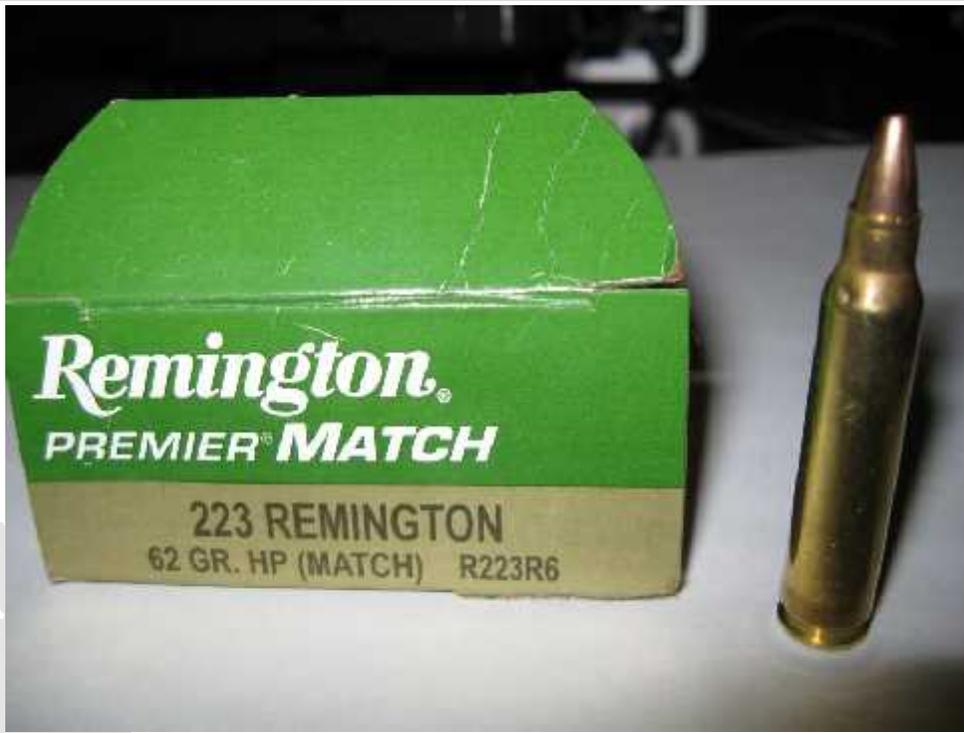

Cracked heavy barrel..

.....

The Suspect....

Remington has confirmed that the ammunition was “Improperly” Loaded and has issued recalls on certain lots. There is probably more out there. Personally, I would recall it all just to be safe.

As an instructor note, this is why I require students to wear shooting glasses and to have medical gear on their body or an aid bag close by. We were lucky. Other M4 type weapons have recently “exploded” and the shooters were not as lucky.

**LE CORNER:**

Dayton Ohio to lower the standards for police applicants. This is incredible. Let me see, issue them a badge, semi-automatic pistol and assault rifle and send them out to do great things.

Eric Holder, retard in charge, probably helped push this.

**MONTHLY PERSPECTIVE:**

**Failure to Arm American Security People in Mexico**

Our president continues to be a gutless wonder. Mexico will not allow U.S. Agents to be armed in Mexico. What a loser and coward he is. American security forces

.....

•

need the ability to defend themselves and it is criminal for our President to roll over to the side of the Mexican government and say that there are “security measures in place.” Give me a break. Cartels are chopping each other up over there and filling suburbans with arms and legs of their victims.

I look around at democrats and their decisions and do not see any character, honor or integrity. They amount to a sub-class of people in my book. We have allowed them to cultivate a generation of voting retards and social misfits. It is easy to stand back and not criticize while this is happening. We attempt to have patience with each passing day, month and year. The problem is that democrats and liberals can easily undo in a short time what great strides conservatives have put in place with years of hard work and sweat.

The jobless claims are down. I believe that individuals have just stopped trying to look for work as they see no hope with the policies of the current administration.

**Border Patrol and Bean Bags**

From a recent e-mail

"If" this is true heads should roll, with Napolitano going first. The ignorance of political correctness has allowed far too many serving our country to die based on ignorant decisions, from both sides of the aisle. If true I hope the family has some sort of cause of action though it is unlikely.

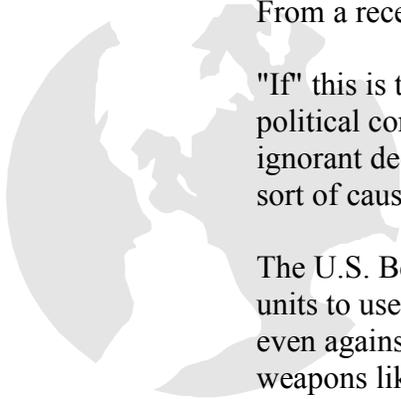

The U.S. Border Patrol is under fire for allegedly ordering its elite, SWAT -style units to use non-lethal bean bag ammunition before responding with deadly force – even against suspects armed with high-powered semi-automatic and automatic weapons like AK-47s.

The controversy over the agency’s “bean bag” policy began in the days following the Dec. 14 killing of U.S. Border Patrol agent Brian Terry and has escalated recently as more information is uncovered in the investigation of the fatal shooting. "When the suspected aliens did not drop their weapons, two Border Patrol agents deployed ‘less than lethal’ beanbags at the suspected aliens,” according to a FBI search warrant request filed in the U.S. District Court in Tucson on Dec. 29. “At this time, at least one of the suspected aliens fired at the Border Patrol agents. Two Border Patrol agents returned fire, one with his long gun and one with his pistol. Border Patrol agent Brian Terry was shot with one bullet and died shortly after.”

Bean Bag rounds are a less lethal response to other than lethal weapons. Sending American security personnel to engage armed foreign intruders on our border with bean bags is criminal at best.

The director of HLS, Janet Napolitano should be criminally charged and fired. No salary, severance or pension should be awarded. Any leadership in the Border

Patrol who authorized this should also be fired. The spineless administrators need to go. They have blood on their hands. President Obama and his herd of liberal scumbag appointees are trying to systematically dismantle the security of our nation. They are relieving ship commanders as fast as they can appoint new ones. They are sending brave Americans into harm's way with no weapons. They are not allowing Americans to protect themselves in war torn countries. Unacceptable. It makes me want to spit on every democrat I walk by.

**We finally hit Libya**

As usual, we probably waited too long take action in Libya. Rumors are that Kaddafi's forces murdered people in hospitals who had gunshot wounds from demonstrating in the streets. It did not take much of a CSI type to find them and cull the herd.

I wonder how many rebels who were trying to do the right thing, died because of our lame President who would rather kiss union ass than set the example and try and lead in the free world and act decisively. Good job Democrats. Your ignorant choices are getting freedom loving peoples of all countries killed. The only positive thing you are doing is rotating our stock of cruise missiles...

Finally, since our president wants to not going to step up and take charge on the Libya mission, what foreign power/command is the U.S. going to put their combat troops under?

**MONTHLY INSPIRATION:**

**Still working on it.....**

**COURSE UPDATE(S):**

We just finished Vehicle Defense I. The course flowed well with 25% classroom and 75% hands on/live fire. I have amassed a great deal of shooting around vehicles over the years and attempt to give the students a better understanding of all their courses of action when in a motor vehicle.

We began on Day 1 with PP classes and moved to the firing range. We conducted liver fire shooting form in and around vehicles. We moved back to the barracks and conducted a medical class. Day 2 was compromised of tactical scenarios where students could drive through the problem or they would be forced to abandon their vehicle and maneuver. Another scenario involved a home arrival drill and the final scenario worked around vehicles and shooting moving targets.

The only change I am looking at doing in the course is to push medical to the beginning of day 2 and do an hour more of range fire on day 1.

**TRAINING:**

None noted...

**RANGE UPDATE:**

Eric is about finished with the Sporting Clays stations and the machines should arrive any day now. We have several groups already booked to shoot the course. We will conduct a test run with our Sportsman Club to flush out any bugs.

**Should an agency or group wish to rent the facility, feel free to contact us for rates. This includes the ranges, new property, classroom and bunkhouse.**

**CLASSROOM/ LODGE:**

**NONE AT THIS TIME.....**

**EQUIPMENT:**

**Grip Force Adapters**

[www.gripforceproducts.com](http://www.gripforceproducts.com)

These grip adapters attach simply by pushing out the grip pin and pushing in the one provided with the grip. The grip adapters come in various sizes and colors. What do they do?

- They provide a greater surface area on the back strap for recoil distribution.
- For those with larger hands that cause excess trigger finger to come into contact with the trigger, it will move your hand back a bit to allow a better trigger finger trigger contact/control.

While shooting with the Grip Force Adapter, I have not much of a difference in how the weapon points. My shooting times have not changed and I feel like I have better control over the weapon. I also use one on my sub-compact carry Glock and it seems to fill my hand better.

**Primary Weapons Systems CSAT Rifle**

<http://primaryweapons.com/store/pc/home.asp>

Primary Weapon Systems and CSAT are working together to put out a Gas Piston rifle. Based on the AK gas system, I have shot several of their rifles and have run without a hitch.

**Leadership and Training For the Fight/The Tactical Trainer**

I am working on the final draft of the new book and it will be around 400 pages. It is on track to be out in July of 2011 and is available for preorder from [www.amazon.com](http://www.amazon.com) It will also contain the “**The Tactical Trainer.**”

The original “**Leadership and Training for the Fight**” will be available exclusively through [www.authorshouse.com](http://www.authorshouse.com) for those wishing to purchase it.

**READING/MISC. INFORMATION**

More books stacking up...

**CLASS PAYMENTS**

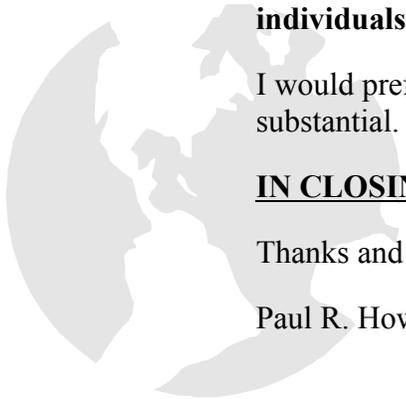

**You will have a slot in the course when I receive payment for the class. In the case of an agency, when they officially request an invoice. I have had too many individuals not show up lately and I intend to put a stop to it.**

I would prefer you send a check as the credit card costs for processing are substantial.

**IN CLOSING**

Thanks and we look forward to seeing you all soon.

Paul R. Howe
