GENERAL INFORMATION:

The Tactical Pistol Instructor course I instructed in March set a new standard. The instructor students came in prepared and ready to shoot. They all qualified by the end of day two. This gave us a great deal of time to work on assigned classes and briefing. Outstanding job guys.

LE CORNER:

Special Combined Tactical Pistol/Rifle Instructor Course

I have been requested to teach a combined Tactical Pistol/Rifle Instructor Course in one. I can do it if the student adequately prepares. This course will be for the experienced LE Instructor who has a solid shooting/instructor base in both rifle and pistol skills along with running a line. I have added this course to the calendar for **2-7 September**. The cost will be \$1,200 for both courses.

I understand that training budgets are tight and those who have already signed up are planning to pay out of pocket. This will be a 50 hour course. I highly recommend that you purchase my DVD's and practice my standards for a few months prior to attending. Let me know if you have any questions.

MONTHLY PERSPECTIVE:

Two major topics stick out this month in the media. One is Afghanistan and the other is the Trayvon Martin shooting in Florida.

First, AFGHANISTAN

Multiple problems exist in regards to our dealing with this country and their problems.

First, our elected **PRESIDENT** has no experience in foreign relations and as best I can tell, all the countries he deals with do not respect him. It is the blind leading the blind and this problem trickles down to our State Department.

The head of our **STATE DEPARTMENT** was a political appointee with little experience in the field. Her qualifications were that of being the president's wife. Now we have two inexperienced leaders to deal with in regards to our country who provide no decisive direction and learn while on the job.

Our **MILITARY LEADERSHIP** has become political and now makes "career decisions" instead of ones that keep their soldiers safe. Conflicting Rules of Engagement and living with your enemy does not help. This also demoralizes the troops

The **MEDIA** has lost interest and does not cover the story in depth nor do they press sources to find out and report the facts.

As a result of the of the media laziness, the **AMERICAN PEOPLE** are uninformed and do not know what to believe.

American **SOLDIERS** are the ones dying and injured because we lack the political will to make a decision. We are now assigned “Angels” or foreign protectors as we do not know who is friend and foe. We must arrange our desk to face doors in foreign military assignments as we do not know who will be coming through it, friend or assassin.

Excuse my language, but it is a “shit sandwich.” The long and short of it is, we tried. That is what Americans do. We tried to make it better. If the people of Afghanistan wish to stay at savage level, let them. They are not ready to evolve. Maybe they never will, but we can at least say we tried. Some fights start as a good fight and as time goes on, they change. This maybe the case here and it is no longer a good fight. We have the military might and technology to kill them all, but that would not solve their problem. They have to evolve on their own.

Yes, a few of their holy books were burned because they were written in by their people and contained sensitive information. This is not a justification to kill Americans unless you are a booger-eating moron. If the shoe fits...

If we pull the mission, bring all the good Afghans we can out and resettle them in the US. They can influence their country from the outside in the future, from the safety of the U.S.

Next, take all the military gear and hardware with us or destroy it in place. We might have to go in their again one day and fight them. Our soldiers do not wish to be killed with weapons we provided to that host nation.

And finally, cut every penny our government gives them. If the liberal turds of our country want to give them money, they can take up private collections.

This is probably a situation where we choose to walk away from and we should do it with our heads up, knowing we tried to do the right thing. We know the people of that country are not willing to stand up for what is right and shape their own course. We cannot do it for them. We can only try from time to time to help them. If they perish for not having the guts to shape their own country, so be it. We cannot fight their fight if they are not willing to. This approach has never worked and never will.

**SOMETHING
WRONG WITH
YOUR
PRIORITIES.**

Next is the issue of Trayvon Martin's shooting in Florida. Our president has deemed it necessary to respond and the below pictures about sum up a lot of American's feelings.

Trayvon Martin's photo used by the hysterical Race Baiters

The truth Should Not have an agenda !

IF I HAD A SON, HE WOULD LOOK LIKE TRAYVON.

I SEE THE FAMILY RESEMBLANCE...

My thoughts on this are simple. Our president is one of most ignorant and racially divisive men in our history. Before knowing all the facts, he chooses to comment and take the “Black” side stating “If I had a son, he would look like Trayvon”. Maybe he is just looking for votes, I don’t know.

The “hoodie” issue is simple one. Don’t wear them unless you want to look like a thug or gangster, especially at night. If the police do stop you, it is because you look like a crook or thug and not because of the color of your skin. This is another indicator of your stupidity. You wear hoods when it is as cold as hell outside and you are worried about your ears freezing.

Next, don’t beat up the neighborhood watch. Your fists can be considered a deadly weapon as can the concrete sidewalk you are beating your victim’s head into. Trayvon, if you did this, you deserved to be shot and I am glad you are dead and cannot breed other shitheads.

The parents of Trayvon are ignorant partially responsible if they raised a criminal. I am sure they are proud of their son’s Facebook picture. He does not look like the average wholesome kid I know.

Also, we need to know Trayvon’s school and criminal history, which has not been release and probably will not be.

Blacks of America are picking the wrong fight as usual. Instead of cleaning up their own problems, they start the “WeBe” syndrome. We be picked on, We be discriminated against, We be deprived. You are not picked on, you are stupid. You should shit-can Al Sharpton and Jessie Jackson and get some real leaders in the Black Community. Good leaders who would push you to become better citizens. Not those you currently have that promote your right to be a loser and live of government handouts.

If you allow and encourage your kids to grow up to be thugs, you are weakening this country. This shitty attitude is getting old and Americans are tired of you sniveling about how bad you are treated and the excuses you make.

Use Trayvon’s death as a teaching point on how not to be....

Reference Racism...

I have always tried and look at issues objectively in my private life, military life and now business life. Some might see my comments as “racial,” but I have always tried to call it like I see it and will take a few lines to explain my view.

America gained rapid strength through the peoples who willingly came to our country to make a better life for themselves and their family. Many times they left family and property behind for the dream of a better life. Many failed, but many succeeded. They did not see hardships, they saw opportunity.

This “selection process” helped shape the peoples who came here and in turn, made our country stronger. The belief that all men are created equal is as sound and strong today as it was with our countries founders.

Unfortunately through slavery, a great many Black Americans bypassed the selection process and came to America a “captured people” or slaves. It was wrong back then and it is wrong today. As Americans, we saw the error in our ways and created a level playing field and assimilated slaves into our country as Americans. We have had issues bringing equality, but most good people look at what is in a person’s heart and not the color of their skin before they pass judgement on another person. This is what I do.

The problem American Blacks are facing is that the Black leadership that helped them gain equality and who they empowered has not changed and redirected their efforts of equality to strengthening Black Americans and helping them integrate into society. In short, they are not helping them develop as a people and make them better Americans. Instead Black Leaders wish to keep their power base, money and votes and do this by enabling Black Americans to be dependent. These leaders provide “excuses” versus saying you dropped the ball or you screwed up. Now fix it.

Reference President Obama, he is the short term “Life Guard,” in this pool we call America. As a president he has failed. He looks around and postures, flexes and

talks smack, but fails to protect and look out for the people in his pool. He even pees in it every so often because he is lazy and arrogant. People are drowning in this country from lack of leadership and he is aloof and clueless.

As I live my life, I will try and look at EVERYONE the same and welcome them with a smile, believing they are a good person until they prove otherwise. I will try and look at the whole person and what is in their heart before I make a decision on that person or their character. I have served with every race and religion in the military and they are a fellow soldier and friend. If they happen to be a dirtball, it is not because of their race or Religion, it is because as an individual, they choose this path.

Finally, if I catch you on my property at night wearing a hoodie (race immaterial), you are probably screwed.....

Further.....

OUR GOVERNMENT AT WORK:

The Food Stamp program, under the U.S. Department of Agriculture, seems to be pleased to be distributing the greatest amount of food stamps ever.

Meanwhile, the National Forest Service, also under the Department of Agriculture, tells us "*please do not feed the animals*" because the animals may grow dependent on our handouts and not learn to take care of themselves. ????????

MONTHLY INSPIRATION:

GRANITE STATE HARLEY-DAVIDSON

A boy went to war in 1914 and left his bike chained to a small tree. He never made it home, and his family left the bike by the tree in his memory. This is that tree today.

MONDAYS

You're telling me they will happen every week?

TRAINING:

In May we will be filming two more DVD's, one "Combat Mindset" and the other "Tactical Drills." Combat Mindset is what it is, for LE, Mil and civilians. I will talk about my beliefs, how I arrived at them and how to cultivate yours.

Tactical Drills will be a video of back-to-back tactical drills that I deem relevant to the Mil, LE or civilian. In short, if I was going to combat tomorrow, this is what I would practice.

Tactical Medical Integration Course

I have had several requests for medical courses and my preference would be to run a Tactical Medical Integration Course where I would train students in the following:

Day 1: Rifle/Pistol/Safety

Day 2: CQB (Individual, Team and Organizational Medical applications)

Day 3: Hallways (Individual, Team and Organizational Medical applications)

Day 4: Exterior Movement (Same as above)/Low Light application

Day 5: Scenarios

The overall goals of the course would teach all aspects of medical relating to the team integrated medic, gun carrying with the command element or the non-gun carrying personnel and how to best integrate them into the tactical environment to handle single, multiple or mass casualty situations. I would also make suggestions as how to best handle medical training and scenarios into the tactical team environment.

Shoot me an e-mail with your interest and I will get the class scheduled and on the calendar.

RANGE UPDATE:

Quiet this month

CLASSROOM/ LODGE:

NONE AT THIS TIME.....

EQUIPMENT:

Shortly MGM Targets will be cutting CSAT Chest plates and full IPSC type targets along with some reactive steel. It will arrive in the next few days and I will do a test report in the next web letter. I look forward to working with them in the future.

HUNTING UPDATE:

Chupacabra??

Above rabbit???? Flying ????

Also, I was walking the dogs the other morning and 25-30 hogs walked across the 500 yard range area. I was at about the 150 mark and started shooting into the “clusters” and got about 5-6 rounds off before they scattered. More to follow on this...

I will be running an “Urban Marksman” class in a couple of weeks and full scale “tune-up” is coming.

DVD’s, Leadership and Training For the Fight/The Tactical Trainer

The book out and available from www.amazon.com It also contains the “**The Tactical Trainer.**”

The original “**Leadership and Training for the Fight**” will be available exclusively through www.authorshouse.com for those wishing to purchase it.

The Advanced Tac Pistol/Rifle DVD is out. If you are coming to either my Tactical Rifle or Pistol Instructor course, I would recommend buying the Operator level DVD's, review it and start to shoot the drills and standards. The learning curve for the class will not be so steep.

Finally, Skyhorse notified me that they have downloaded "Leadership and Training for the Fight" to the e-book format.

READING/MISC. INFORMATION

More books stacking up...

CLASS PAYMENTS

You will have a slot in the course when I receive payment for the class. In the case of an agency, when they officially request an invoice. I have had too many individuals not show up lately and I intend to put a stop to it.

I would prefer you send a check as the credit card costs for processing are substantial.

IN CLOSING

Thanks and we look forward to seeing you all soon.
