INFORMATION LETTER/UPDATE:

GENERAL INFORMATION:

Long story short, the fight never ends.

In my simple view, our government's main function is to provide a secure environment for Americans to live safe, work and prosper. Government's intervention in business has never worked and will never work because we have too many "professional politicians" with no business experience and little common sense.

The liberals who voted for another four years of the same thing don't understand it that it is going to get much worse for them. The Denny's restaurant owner in Florida who going to cut hours to 35 a week so he can avoid "Obamacare" is doing it so his business can survive. The problem is that his employees will be stressed and have to find work elsewhere and probably work more hours to make ends meet. What liberals don't understand is that a business has to make a profit or it is out of business.

Next, Americans and people in general need to work so they can channelize their energy in a positive way or trouble will follow. Our current administration's efforts stifle and strangle small businesses, prevent growth and put many out of business. No growth means no jobs, no business means even less jobs. Not really difficult to understand.

LE CORNER:

I just returned from speaking at the Illinois Tactical Police Officers Association 25th Anniversary conference and they are a class act. It was my pleasure to talk about Combat Mindset and Future Battlefields that they will encounter as law enforcement.

INSTRUCTOR NOTES

Occasionally I get a student that does not gel with an instructor and an instructor that does not gel with students. Should you ever have a problem in one of my courses, let me know immediately and I will make adjustments swiftly and without stress

Not all instructors that come to my instructor courses are going to make it in their training career. I feel I must give them a chance and from time to time, I pull them back from the line and instruct them not talk to students any further and to watch for safety issues only.

In the end, their lack of technical skills, communication, etc., will shorten their teaching career unless they are in an agency or department that does not care. In the teaching for profit world, their careers will be short lived.

In the end, it is less than 5% that fall into this category and I attempt to counsel and mentor them during courses, but sometimes their personality or teaching techniques are locked in stone.

MONTHLY INSPIRATION

Stay free, Stay armed....

I like the quiet professional approach to work and to being a citizen. I encourage conservative Americans to continue to quietly arm themselves and stay prepared. The Liberal media refuses to acknowledge or report that President Obama has been

the best gun salesman in the history of our country. Gun and ammunition manufacturers cannot keep up. I think it is all telling in what Americans believe is coming.

Should we get hit with another natural or manmade disaster, one segment of American will be armed and prepared and the others will not. Along with purchasing firearms, learn how to use them and keep them clean and serviceable. Learn how to do basic first aid to treat yourself, your family or other good guys. Learn how to efficiently use that tool you have purchased. Finally learn how to prepare your neighborhood from criminal threats.

Reference our country's path, two key trip wires should send up flares. One is gun control or confiscation. The other is limiting communications. As long as Americans have guns, they will remain free. Any attempt to disarm America would get ugly. As for our nation's communications system, it has partially been compromised by the media. The media's lack of conviction and biased reporting tends to sway the weak minded and ignorant. When a media outlet goes for one candidate over the other and does this publicly, they lose their sense of balance and this is dangerous. This means they will report heavily one way in support of their candidate or belief system and ignore many important facts and events.

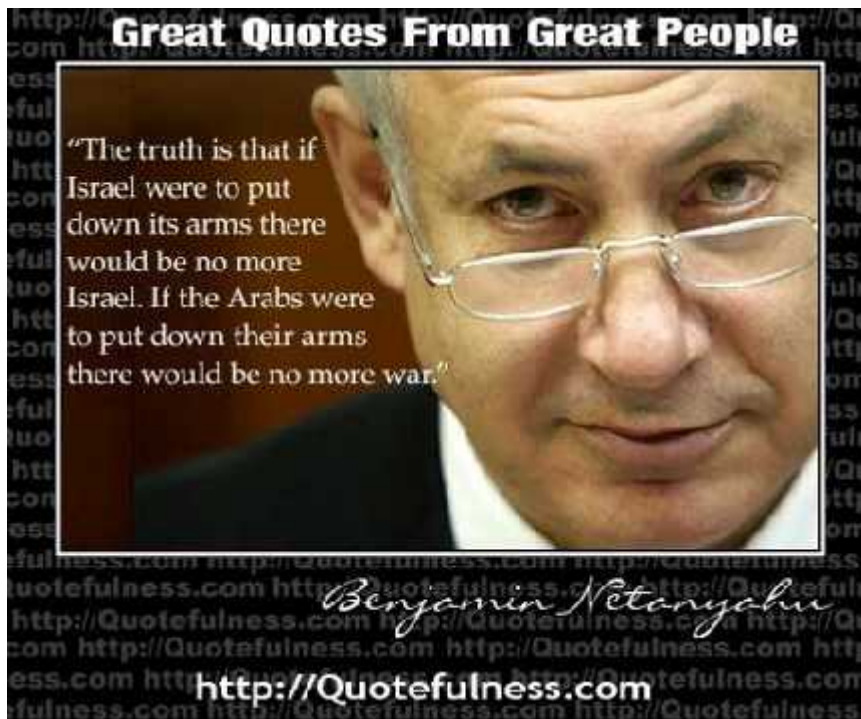

I am really not too worried about the government taking guns as that would start an armed revolt that would get our country back on track in short order. Again, liberals and their media will never report that President Obama has been the best gun salesman in the history of our nation. Gun and ammo manufactures cannot keep up with the demand. I think this is outstanding. Should the liberals of the world ever try and disarm Americans, it will be a short and one-sided fight.....

MONTHLY PERSPECTIVE:

How many days and we still don't know what happened or who screwed up?

America has become a lazy country....

People want more and want it now. They do not want to earn it, rather they want it because they feel they deserve it by being born in this country.

For me, in the future, I am going to vote with my money. I will not spend it in liberal states and have marked Colorado off my vacation list. I used to spend thousands of dollars each year there on vacations and have decided they are a bit liberal for me. Other states have mountains and beautiful areas along with conservative values.

Colorado seems to be more interested in catering to dope smoking hippies than to the relevant issues that face our country. The thought of walking in the small town we used to visit and having to make our way around liberal dopers and their pot smoke clouds does not set well with me. In the future, we will vacation in a conservative state that still believes in core American values. Colorado, you can let the hippies and California liberal transplants dictate your values and support your economy.

“Economic push back” is one way to tell the unions and liberal scum to wake up. I would like to think that if Sam Walton, the founder of Wal-Mart was alive he would close down the stores in Miami and move them out of Colorado and Washington State to send a message that his conservative values are not out of date and voters must be held accountable for their actions.

Gun manufacturers should move their factories and people to states that promote their products and values and leave the liberals with an economic vacuum. We need to get serious with this. Let the liberals see how well the dope smoking hippie types infuse their economies with economic growth and development.

Finally, Media outlets should be purchased by conservatives. I understand they don't make money, but they influence Americans and elections. Once they are purchased, they should start the firing of the left-wing socialist reporters who have forgotten what their mission in life is all about.

Taken from FB page:

Photo of the Day: This is Lindsey Stone. She was on a paid work trip to Arlington National Cemetery with the non profit organization LIFE whose primary mission is to help adults with disabilities (no she doesn't have one herself).

This picture was taken at the Tomb of the Unknown Soldier. Both her and her boss (the woman who allegedly took the picture) have been placed on administrative leave, pending the outcome of an investigation.

I am beyond words with sadness and disappointment here. This cemetery is one of the most sacred places in our entire country. Warriors from every generation rest here.

The irony of it all, their deaths in the defense of our freedom give her the right to defile and disrespect their memory.

I hope you enjoy that hard won freedom Lindsey.

My only wish is that one of the Tomb Guards would have seen this and kept her gene pool from ever reproducing.... This is not freedom of speech. Show a little respect you nasty democrat bitch....

ON A LIGHTER NOTE...

My promise to my children

For as long as I live I will always be your parent first and your friend second. I will stalk you, flip out on you, lecture you, drive you insane, be your worst nightmare and hunt you down like a bloodhound when I have to, because I love you. When you understand that, I will know you have become a responsible adult. You will never find anyone else in your life who loves, prays, cares & worries about you more than I do. If you don't mutter under your breath "I hate you" at least once in your life, I am not doing my job properly.

SHARE if you are a parent and agree

TRAINING:

If you have groups wanting training or training suggestions, I keep open dates on the calendar.

RANGE UPDATE:

I was finally able to cut a road around the entire perimeter of my property this past month. I have wanted to do this for some time. It will act as a great running trail and along with access to parts of the property I have never seen.

CLASSROOM/ LODGE:

No changes

EQUIPMENT:

<http://www.contactconcealment.com/>

This holster by Contact Concealment is probably my most versatile concealment holster in my inventory. In the normal mode, I can un-tuck my shirt and cover it or put on a jacket.

For sub-compact and compact pistols, I prefer this carry as it provides me with several different options.

Page 10

Easy to see in the below picture is the extended slide shield that allows you to “push off” the holster with one hand, positively freeing the pistol.

The holster can be pushed off on a nightstand, a bag or from your back pocket.

I can slide a pistol into back pocket if I want to answer the door at night and not seem so obvious.

Bruce's paddle holsters are built tough and I use these as field holsters.

CLASS PAYMENTS

You will have a slot in the course when I receive payment for the class. In the case of an agency, when they officially request an invoice. I have had too many individuals not show up lately and I intend to put a stop to it.

I would prefer you send a check as the credit card costs for processing are substantial.

IN CLOSING

Thanks and we look forward to seeing you all soon.
