MARCH 2012

INFORMATION LETTER/UPDATE:

MAJOR CALENDAR CHANGES:

Added: Law Enforcement

GENERAL INFORMATION:

I ran a Tactical Rifle Instructor course this past month and it was a pleasure to have 15 soldiers from the 468th Civil Affairs unit in the instructor class. It was great to work with soldiers again and they did an exceptional job during their course and while instructing and managing the two-day operator course which had 22 students in it. I look forward to more training with them in the future.

Next, we ran an Advanced SWAT with the help of several instructors that will be teaching for CSAT in the future. Major changes from a Basic SWAT included the addition of Bus Assaults, Tactical Planning and more live fire modules.

LE CORNER:

Tactical Medic Questions

One of most commonly asked questions reference my Tactical Medical Integration course is why the shooting? First, to ensure safety in their environment, Tac Medics need to be able to provide their own security and clear their own area if needed before they begin work. Next, an assault force of 15, takes over 30 weapons into a target. Medics need to be able to clear assaulter weapons should they be injured, bad guy weapons if one is found and innocent weapons such as a concealed carry civilians should they be injured. The only way to do this is to teach them how to shoot and understand the safety protocols involving rifles, pistols and shotguns.

.....

Further, a medic may have to search a bad guy if the situation dictates or cover an officer who is searching if manpower is limited. Finally, guns are part of the business and it is important that they know how to deal with them safely and efficiently.

MONTHLY PERSPECTIVE:

Below is a great link to a young woman who speaks her mind on the issue of the Korans being burned.

<http://www.youtube.com/watch?v=ZYectbGSkkw&feature=share>

Our president apologized, again, bowing to savages who should be left to rot. Pull our aid, our people, our military, etc. Do the same in Pakistan and arm India so they can protect themselves from the knuckle draggers next door.

They are thugs with guns and they do not wish to evolve. All they want to do is bully everyone outside their circle, both politically and religious.

As for Syria, any day now..... What is a few thousand more people dying under oppression? No biggie to the administration... Our president continues to show his inexperience and lack of leadership.

RACISM

One of the best lines I've heard lately was from a retired shop foreman at the old Republic Steel plant in Cleveland OH....

When a young black kid was being laid off. The black kid said to the shop foreman: "You're firing me because I'm black!" The foreman thought a moment and replied "No, we hired you because you're black."... **"We're firing you because you are useless!"**

**Sounds like a very good slogan for the
2012 election!**

Let me see now. Singer, actress, drug addict, alcoholic, dead. Not much of a role model in my book. It is amazing the tears people shed for someone who had no depth or strength of character. She was a person who surrounded herself with other dopers and Hollywood scumbags. A person who died and left her daughter to fend for herself with more emotional baggage than any one person deserves.

The scumbag mainstream media is a whore to the almighty dollar and the weak Americans who gulp down their trivial garbage. As a reporter, I could not imagine having to dedicate my life to writing about lackluster Hollywood dopers who should have fallen off the radar screen years ago and who only serve as “how not to be,”

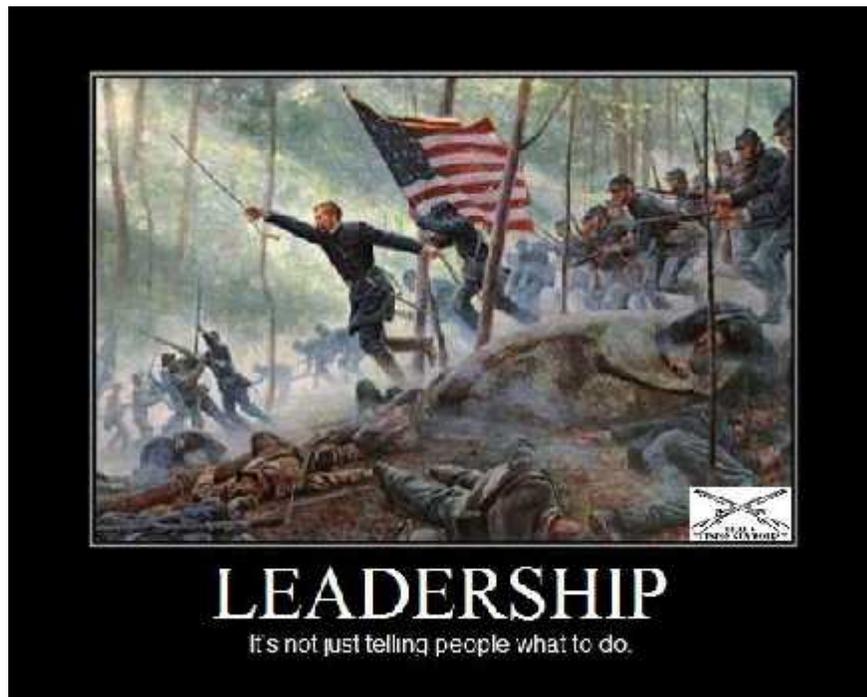

Yes, Whitney was pretty, now she is pretty fucking dead....Go girl...

Not much else to say here other than this is the type of person I want to surround myself with.

As for the young man above, let him shed his tears and then teach him how to be a man like his father was. Teach him to be strong and to crush liberal anti-American douche bags. Teach him how to make his father proud...

I'm a legal American citizen and I must show my ID when:

1. Pulled over by the police.
2. Making purchases on my department store credit card.
3. When I show up for a doctor's appointment.
4. When filling out a credit card or loan application.
5. When applying for or renewing a driver's license or passport.
6. When applying for any kind of insurance.
7. When filling out college applications.
8. When donating blood.
9. When obtaining certain prescription drugs.
10. When making some debit purchases, especially if I'm out of state.
11. When collecting a boarding pass for airline or train travel.

***I'm sure there are more instances, but the point is that we citizens of the USA
are required to prove who we are nearly every day!***

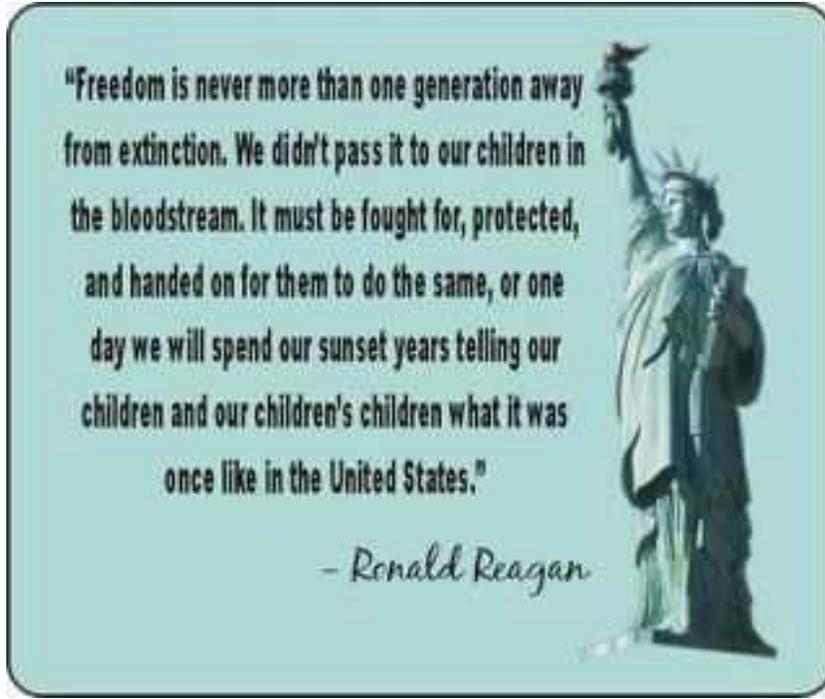

Why should people in this country illegally, be exempt!!!!

Why shouldn't we guard our borders as closely as every other country in the world does?

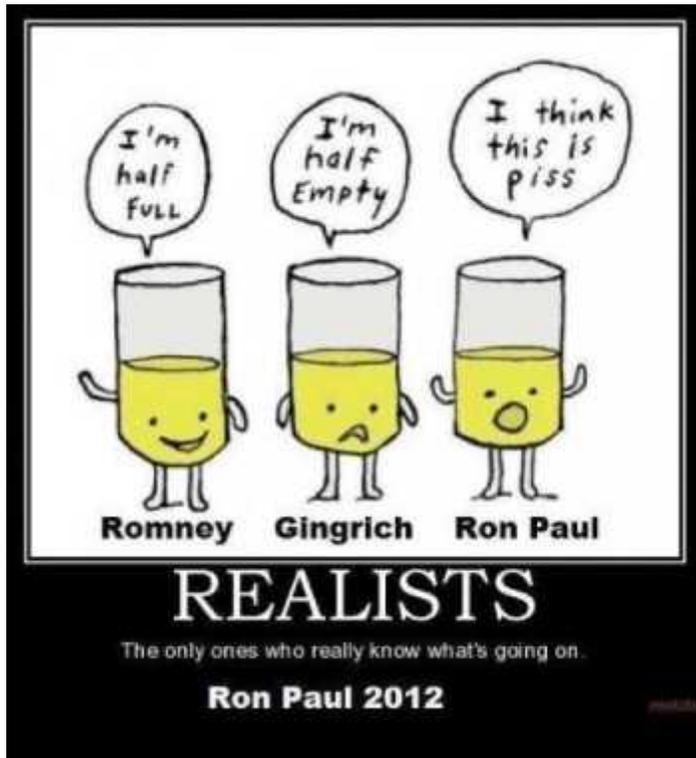

Go ARIZONA !!!

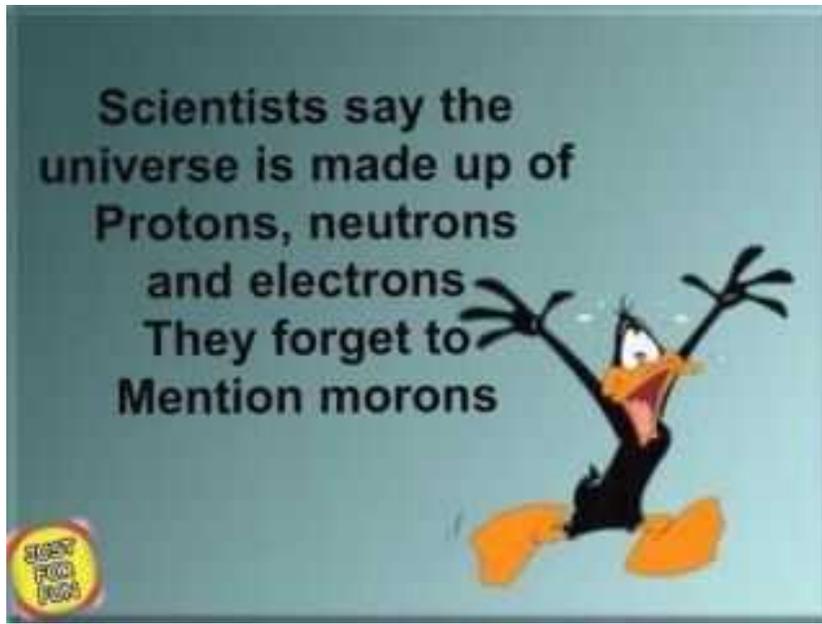

***Only 68% will send this on... Should be a 100%!
BET YOU'LL SEND IT!!!***

Too true. What the hell are the liberal turds thinking? They are setting American up for another 9/11 just so they can blame it on Republicans.

On a lighter note...

TRAINING:

In May we will be filming two more DVD's, one "Combat Mindset" and the other "Tactical Drills." Combat Mindset is what it is, for LE, Mil and civilians. I will talk about my beliefs, how I arrived at them and how to cultivate yours.

Tactical Drills will be a video of back-to-back tactical drills that I deem relevant to the Mil, LE or civilian. In short, if I was going to combat tomorrow, this is what I would practice.

Tactical Medical Integration Course

I have had several requests for medical courses and my preference would be to run a Tactical Medical Integration Course where I would train students in the following:

Day 1: Rifle/Pistol/Safety

Day 2: CQB (Individual, Team and Organizational Medical applications)

Day 3: Hallways (Individual, Team and Organizational Medical applications)

Day 4: Exterior Movement (Same as above)/Low Light application

Day 5: Scenarios

The overall goals of the course would teach all aspects of medical relating to the team integrated medic, gun carrying with the command element or the non-gun carrying personnel and how to best integrate them into the tactical environment to handle single, multiple or mass casualty situations. I would also make suggestions as how to best handle medical training and scenarios into the tactical team environment.

Shoot me an e-mail with your interest and I will get the class scheduled and on the calendar.

RANGE UPDATE:

Quiet this month

CLASSROOM/ LODGE:

NONE AT THIS TIME.....

EQUIPMENT:

Shortly MGM Targets will be cutting CSAT Chest plates and full IPSC type targets. I look forward to working with them in the future.

HUNTING UPDATE:

DVD's, Leadership and Training For the Fight/The Tactical Trainer

The book out and available from www.amazon.com It also contains the “**The Tactical Trainer.**”

The original “**Leadership and Training for the Fight**” will be available exclusively through www.authorshouse.com for those wishing to purchase it.

The Advanced Tac Pistol/Rifle DVD is out. If you are coming to either my Tactical Rifle or Pistol Instructor course, I would recommend buying the Operator level DVD's, review it and start to shoot the drills and standards. The learning curve for the class will not be so steep.

Finally, Skyhorse notified me that they have downloaded “Leadership and Training for the Fight” to the e-book format.

READING/MISC. INFORMATION

More books stacking up...

CLASS PAYMENTS

You will have a slot in the course when I receive payment for the class. In the case of an agency, when they officially request an invoice. I have had too many individuals not show up lately and I intend to put a stop to it.

I would prefer you send a check as the credit card costs for processing are substantial.

IN CLOSING

Thanks and we look forward to seeing you all soon.
