### **GENERAL INFORMATION:**

My Tactical Rifle and Pistol Instructor (TRI/TPI) courses are running smoother than ever and it is due in large part to Instructor Students coming in having prepared by shooting the standards. This last TRI was not an exception.

I had 13 instructor students and the two day operator class started with 24, two had to depart early for work reasons. The instructor students came in, qualified, many on day one and we were able to cover much more material such as shooter development in depth. The two day operator class went extremely well and I had two former instructor students come back and qualify for their certificates of completion.

Occasionally I do have a student in a two day class that does not feel comfortable with the instructor that they are assigned. My advice to you is if you have a problem, bring it up on day one and I will change the instructor out immediately as I want you to have the best shooting experience possible. If you want me to personally watch you, I will. I will even stay late and watch/time you if you request it. One student did and I was happy to work with one on one for a few minutes at the end of the day.

As for me using instructor students to help teach, I believe in the system. No one is born an instructor. You have to continually work at it and refine yourself and develop patience with students and address each one as an individual. When instructor students leave my school, they still have a long journey ahead of them.

Their teaching techniques and methodology will make or break them if they are doing it as a profession in the open sector. Students vote with their money and will not come to your class if you are an ass or arrogant. The word gets around pretty quick with word of mouth and the internet.

In the end, I get positive e-mails wanting me to thank the instructors that helped them shoot better. I have received two today, the day after the class and I have pushed them forward. Instructors, thank you again for a great class.

**VOTE... BECAUSE  
MEN AND WOMEN  
HAVE DIED TO  
ENSURE YOU ARE  
FREE TO...**

### MONTHLY PERSPECTIVE:

Shortly, we will have the most important election in our lifetime.

One vote will be for bigger government and more dependency. **Democrats** wish weaker and more dependent Americans as they are easier to control. We have seen this does not work over the past four years. Democrats choose to spread fear and divide Americans by pushing for social reforms we do not need. America is the most tolerant nation I know when it comes to human rights. Yet Democrats continue to spread seeds of discontent and inequality.

**Conservative Americans** will help restore America and the belief that individuals contribute to our country as strong and self-reliant individuals. These Americans

use their freedoms to the utmost to work hard and build successful businesses which pay more than their fair share of taxes to support our country. In addition, hard work helps shape individuals and their character and set the example for others to follow. Democrats are like someone's kids who are given everything and only want more, spoiled, lazy and undeserving...

These are possibly the 5 best sentences you'll ever read:

1. You cannot legislate the poor into prosperity, by legislating the wealth out of prosperity.
2. What one person receives without working for, another person must work for without receiving.
3. The government cannot give to anybody anything that the government does not first take from somebody else.
4. You cannot multiply wealth by dividing it.
5. When half of the people get the idea that they do not have to work because the other half is going to take care of them; and when the other half gets the idea that it does no good to work, because somebody else is going to get what they work for, that is the beginning of the end of any nation.

Can you think of any reason for not sharing this?  
Neither could I.

Does American society really stand a chance?

**You will have a slot in the course when I receive payment for the class. In the case of an agency, when they officially request an invoice. I have had too many individuals not show up lately and I intend to put a stop to it.**
