SEPTEMBER 2013

INFORMATION LETTER/UPDATE:

GENERAL INFORMATION:

We have been fortunate to have a mild summer here in Nacogdoches. With that, we ran four courses in August, two them being CRAS-Civilian Response to Active Shooters. I am also working on the 2014 calendar as we speak and should have it posted shortly.

TACTICAL CORNER:

Nothing at this time....

LE CORNER:

The CRAS course we run also applies to single officer response to Active Shooters. I have had many officers attend the course and take it back to their respective agencies. We at CSAT believe in the first responder and their ability to make or break the situation.

INSTRUCTOR NOTES:

As your training and agency evolves, use your team leaders on a tactical team to run training modules and use patrol shift leaders to run their shift training. I know agencies that have individual officers report to the range while on shift and conduct a mini-training scenario for 10-15 minutes and then go back to patrol. This is good stuff in my opinion and it keeps the officers focused, motivated and sharp.

MONTHLY INSPIRATION

Democrats and liberals forget this and drain our military, generally during their second administration. Good soldiers, NCO's and officers leave and the political types seek out the power. Many of the real warfighters vote with their feet. It is sad, but a cyclic lesson I have seen played out over my life.

The problem with this scenario is that the threats are out there and those still in service must do more with less and fight the political BS at the same time.

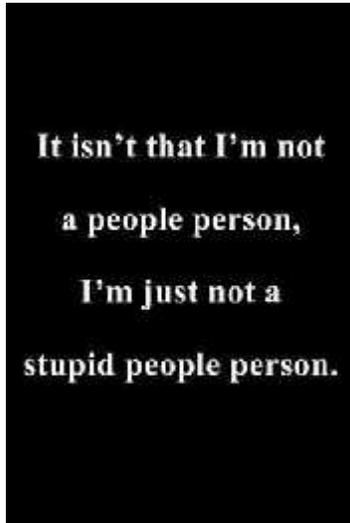

MONTHLY PERSPECTIVE:

Democrats and liberal waive cell phones and other incentives to gain the black vote to strengthen their political base. It is like waiving a lure in front of a large mouth bass. The fish thinks it looks good until it is on the grill and then it is too late.

As for immigration, the system is broken and could easily be fixed with politicians who wanted to do the right thing versus looking to pick up votes. Instead, they sell our country down the road.

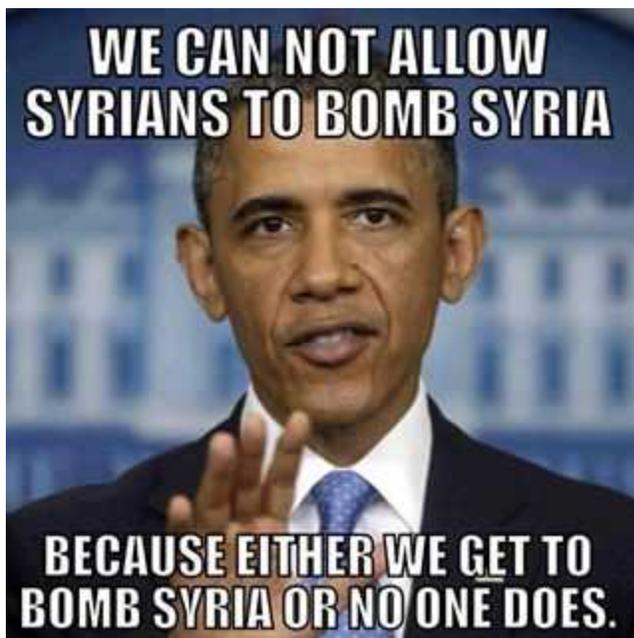

Further, we have a health care system that is broken and now we want to add millions to it roles. For a nation of great collective intelligence, we promote some of the dumbest people I know into leadership positions.

Now I hear that UPS and other major companies are cutting spousal benefits because they cannot afford Obamacare. The ripple effect is well underway...

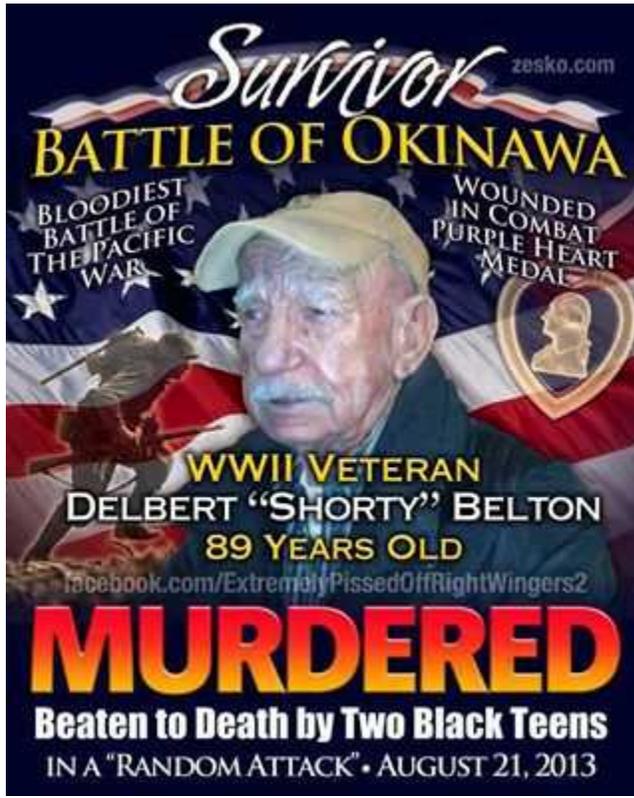

Finally, as for Syria, President Obama has bungled leadership and diplomatic relations from the start and it is probably best to lay low and see how things shake out. I would love to see some of our intelligence assets get their hands on some chemical weapons and determine the country of origin. It would not surprise me if they came from Iraq. Obama would never let this out as it would vindicate President Bush.

Racial Double Standards

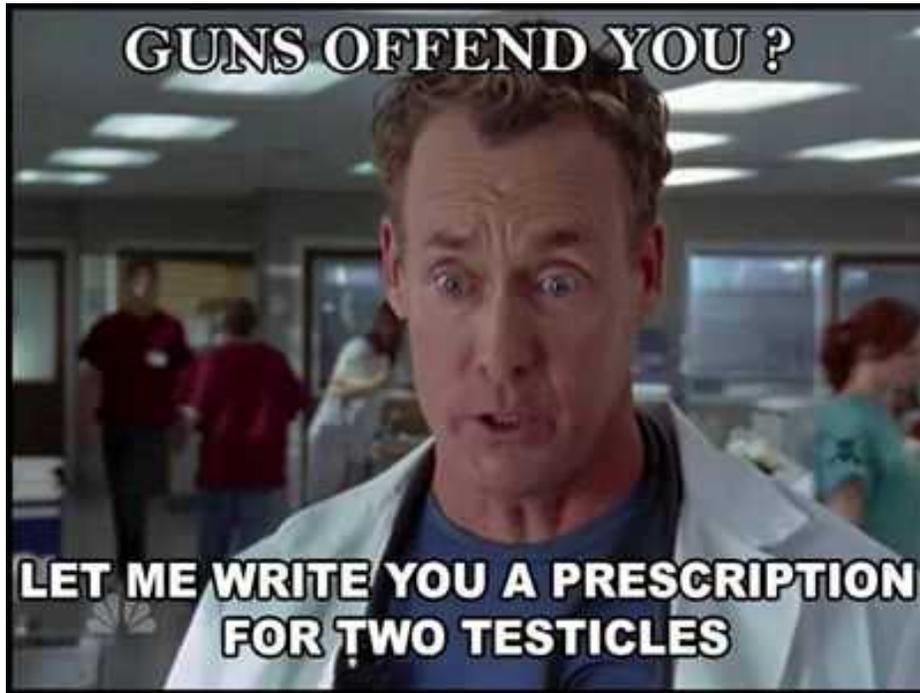

Both of the above people were killed by people who look like Obama. Where is the outrage from any of the left? I am sorry Australia that we have sub class of animals that live in this country, which our liberals and democratic scum protect. Jesse Jackson and Al Sharpton are political pussies and represent the worst in the black race. They are the new slave masters.

Ethnic sniveling is all I can say about this. Get over it Oprah and go hug your millions...

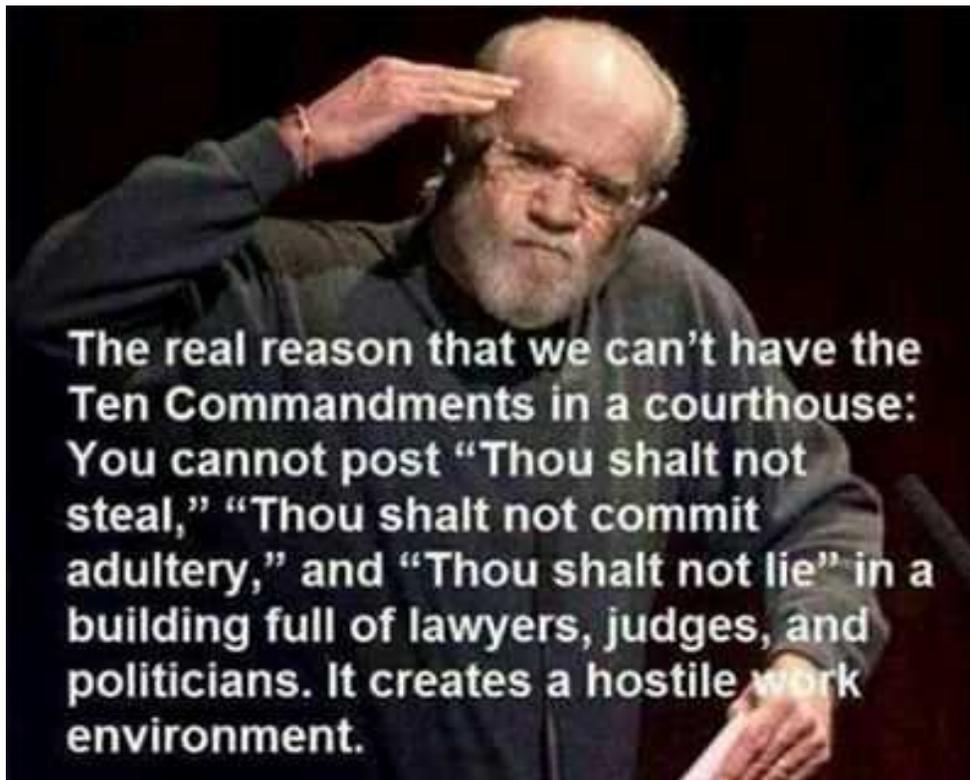

2nd Amendment

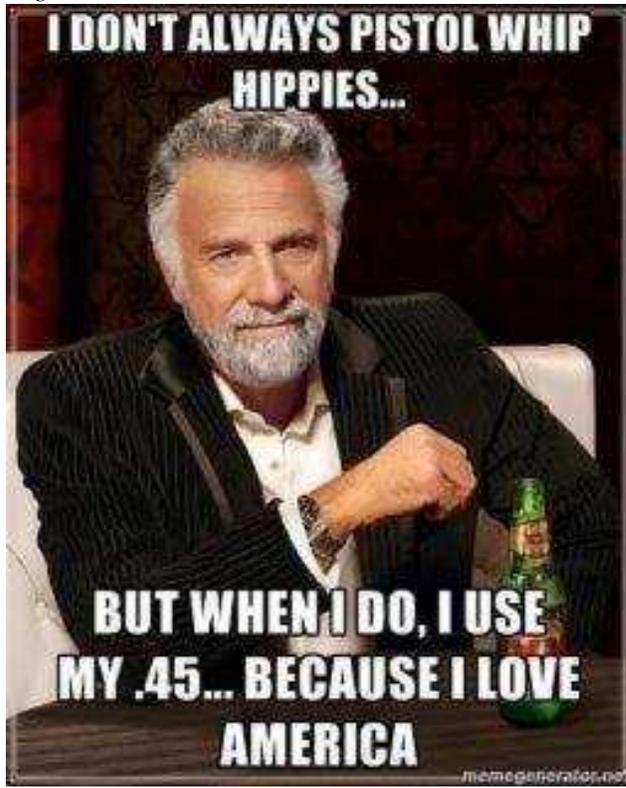

Looks like his tongue is forked from my perspective.

ON A LIGHTER NOTE:

TRAINING:

No comments at this time.

RANGE UPDATE:

I have about done all the dirt work I can do on the property. The road around the property is seeded and I have all the property lines reclaimed so I can maintain them.

CLASSROOM/ LODGE:

No changes

EQUIPMENT:

Lubrication Products

I have been using Fireclean on all my work guns and it is one of the superior lubricants I have found. I am still evaluating it for long term storage.

For long term storage, I still use Mil-Comm products such as TW-25. Even if it dries out, it leaves a visible coating that protects the metal.

How we test it? I use it and my instructors use it. I put some guns away in long term storage (years) and see if the lubricant dries out but still protects, or if the lubricant migrates or congeals. We also use it on our rental guns.

AmeriGlo Hackathorn Sights

I have shot them on a G17, G26 and G33. Hits at 25 yards on a chest plate are easy. The wide rear ensures a fast and easy pick up of the front. They shoot point of aim, point of impact for me, much closer than the Trijicons.

The big orange dot up front has a tritium insert. They are all metal and the rear sight has a set screw. Great for old eyes or a fast pick up.

READING/MISC. INFORMATION

More books stacking up...

CLASS PAYMENTS

You will have a slot in the course when I receive payment for the class. In the case of an agency, when they officially request an invoice. I have had too many individuals not show up lately and I intend to put a stop to it.

I would prefer you send a check as the credit card costs for processing are substantial.

IN CLOSING

Thanks and we look forward to seeing you all soon.
