## **INFORMATION LETTER/UPDATE:**

### **GENERAL INFORMATION:**

#### **School Guardian Programs**

The heat has arrived and school has ended for students. We hosted two ISD's (Independent School District) "Guardian Programs" this summer. Both are from neighboring counties and want their staff trained up in how to respond to active shooter scenarios. The classes were four days each and demanding. Not all students passed. Students learned proper equipment and set up, safety, marksmanship and then tactics to include medical problems and how to link up with police.

Bill and Nick led the students through the training. More will follow as the word gets out and I feel better as a parent knowing some school districts are taking proactive measures to handle critical situations that will one day come.

#### **Class Sign Up**

Due to accounting and class roster hassles, once you confirm with me that you are on the roster, coordinate payment. That means, send a check, request an invoice (LE agency) or request me to contact you for a CC number. This will ensure a full roster with those who are serious having a confirmed slot.

I have started to contact students who have not sent me applications or money and they will have five days to rectify it. Otherwise, I will fill the class with a student who has and wants to promptly pay.

## **CSAT PRO SHOP**

Four local police officers have started the CSAT Tactical Shooting Supply and they will maintain the store website along with shipping out purchased items.

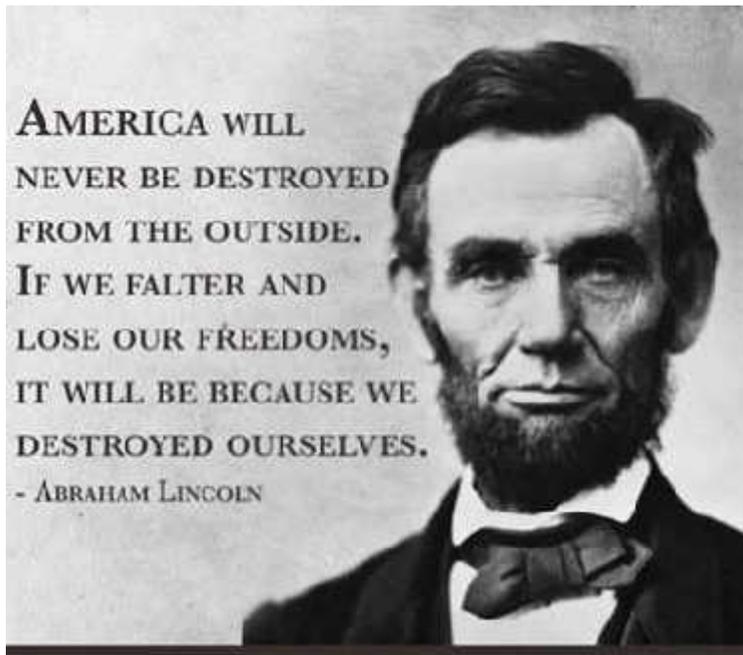

As for the products we carry, we also use it. This way we know what works and what does not. The new link is on the front of the web page.

If you have any questions, feel free to contact me.

### **TACTICAL CORNER:**

I am about finished with the 2015 calendar and would like to schedule classes that customers want to see. If you have a group, I can build a class around you or if you are just an individual, shoot me a short e-mail of what you would want to see.

**Food For Thought**

**If you can get arrested for hunting or fishing without a license, but not for being in the country illegally,**

**you live in a country run by idiots.**

**If you have to get your parents' permission to go on a field trip or take an aspirin in school, but not to get an abortion,**

**you live in a country run by idiots.**

**If you have to show identification to board an airplane, cash a check, buy liquor or check out a library book, but not to vote on who runs the government,**

**you live in a country run by idiots.**

**If the government wants to ban stable, law-abiding citizens from owning gun magazines with more than ten rounds, but gives 20 F-16 fighter jets to the crazy leaders in Egypt,**

**you live in a country run by idiots.**

**If, in the largest city, you can buy two 16-ounce sodas, but not a 24-ounce soda because 24-ounces of a sugary drink might make you fat,**

**you live in a country run by idiots.**

**If an 80-year-old woman can be stripped searched by the TSA but a woman in a hijab is only subject to having her neck and head searched,**

**you live in a country run by idiots.**

**If your government believes that the best way to eradicate trillions of dollars of debt is to spend trillions more,**

**you live in a country run by idiots.**

**If a seven year old boy can be thrown out of grade school for saying his teacher's "cute," but hosting a sexual exploration or diversity class in grade school is perfectly acceptable,**

**you live in a country run by idiots.**

**If hard work and success are met with higher taxes and more government intrusion, while not working is rewarded with EBT cards, WIC checks, Medicaid, subsidized housing and free cell phones,**

**you live in a country run by idiots.**

**If the government's plan for getting people back to work is to incentivize NOT working, with 99 weeks of unemployment checks and no requirement to prove they applied but can't find work,**

**you live in a country run by idiots.**

**If being stripped of the ability to defend yourself makes you more "safe" according to the government, **you live in a country run by idiots.****

**MONTHLY PERSPECTIVE:**

**ISLAM**

I see Radical Islam as the new world threat similar to the Nazis of Germany prior to WWII. They are more dangerous as they are seeded throughout the world in many tolerant friendly countries. They are savage now as they have always been and even more dangerous as they are truly ignorant and armed with more dangerous weapons.

As a religion, mainstream or moderate Islam is too weak to step in and control the radical groups. They allow the radicals to grow and spread like a cancer.

The United States is in the second term of a Democratic president. With that, one of the main priorities of a liberal president is to ruin the economy, put more on welfare and gut the military as Clinton did. Democrats create an even larger poor class in an effort to promise jobs and a way out, despite the fact they are the cause of the depressed economy. Obama's only accomplishment has been to promote the equality of gays and lesbians. Oh wait, they were equal before.

A hollow military and lack of leadership can be seen with the recent ISIS surge. Were we on top of our game, we would have bombed vehicle and equipment storage depots, WMD storage sites and the mass rallies ISIS held. Sadly, we are not on top of our game and we allowed the disease to spread.

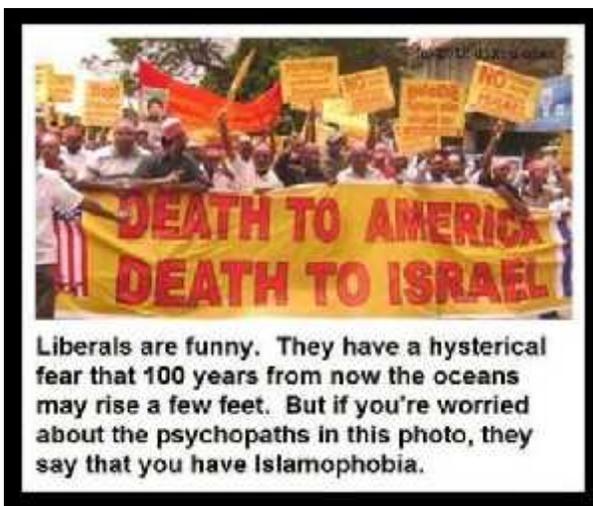

Generally speaking, we have two choices. Fight them when they are weak and disorganized or wait until they kill all their opponents and moderates and fight them then. I guess it will now be the latter.

These people have not evolved as a religion or a race and are savages. Yet they are patient and smart when they attack their enemies. They do it overtly with guns and war and then they do it with legal/illegal immigration. They quietly move into countries and then establish their communities and push for Sharia law.

My view is simple. You come to our country, you respect our laws and live within its framework. If you do not, you leave. We now have to fight these savages on the international front and also be willing to help our allies such as Britain that are infested with radical turds. We also have to be ready to clean our own house of the radicals that have migrated here and are patiently waiting to strike under the Obama administrations noses.

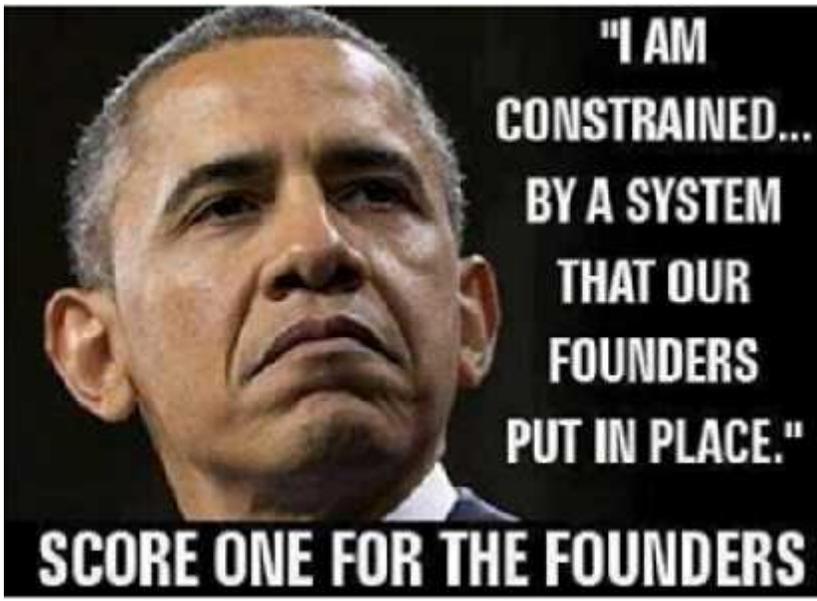

Finally, the liberal scum of our country don't see nor get it when it comes to radical Islam. The liberal's biggest concern in life is that some military prisoner gets as gender change operation during his time in prison.

### Liberal Agenda

It has failed and consistently failed. Our lackluster president has succeeded in becoming the worst president in our history. Tied to that is that we must have the dumbest population in history to have voted for him twice.

**TRAINING:**

Nothing at this time...

**RANGE UPDATE:**

The coolest July I can remember and the mowing continues...

**CLASSROOM/ LODGE:**

NO CHANGES

**EQUIPMENT:**

**INFORCE WMLx 500 Lumen Gun Light**

I first saw the initial version of this light years ago and it looks like they greatly improved upon it. The cross bar does not allow for a white light AD in your bag, which I have had happen on many occasions with other lights

The strobe feature is handy and can be easily deactivated. The features include a constant on with the push of a button or momentary with the flip of a switch.

I was skeptical of the on off/button as I hand only worked it off the gun. When I mounted it, there were no issues and worked like a charm.

As for the light output, it is up there with a Surefire E2D Ultra.
