MONTHLY INSPIRATION

MONTHLY PERSPECTIVE:

U.S. NATIONAL AND INTERNAL POLICY IN SHAMBLES

- **Assimilation**
- **The Black vote**
- **Education**
- **Muslim Issues**

I touched on the above issues this past month and nothing has changed. The president is playing politics with illegal immigration and continuing to subvert our way of life. He has surrounded himself with lack luster losers that share his same ignorant and racist beliefs.

My only hope is that our newly elected representatives shove it up his ass when they are sworn in. They should go for political and legal blood. Our country should be taken back from liberal scum who have attempted to destroy it.

We should start building prisons for all the corrupt politicians and government officials in this administration that need a place to stay after their term in office.

Liberals either ignore the problems or willfully choose not to address them, which indicates no spine or ethics or morals. We have allowed a group of no-time-in-life with no work experience in life politicians make policy for our country. We have become a third rate nation.

Further, the media continues its internal corruption and cover up of the president and his wrong doings.

When I write this letter from month to month I know in my heart that there are so many great things in our country that we lose sight of. Most of the ills would take a simple “tweaking” and this would get our country back on track. We need to quietly take back our country with positive action.

As for Ferguson, a vocal group of liberal Black Americans are becoming the loudest group of racists in our country. They put the KKK to shame. They cover up and ignore corruption in their own race and ranks and spew hate with the encouragement of Al Sharpton. Their actions demean black Americans. They have become the typical arrogant and ignorant liberal democrat. They give hardworking Blacks a bad name.

The below two parents of the adult and criminal thug Michael Brown are part of the problem. They raised a shit bag son and allowed him to be part of the problem and they take no responsibility for their actions. Instead, it is everyone else's problem. The reality is their son died because they were crappy parents and role models. Yep, they are the primary cause of their son's death. They owe the officer who was attacked an apology along with the rest of America, especially the hard working American Blacks who contribute to the good in our country and are trying to make it.

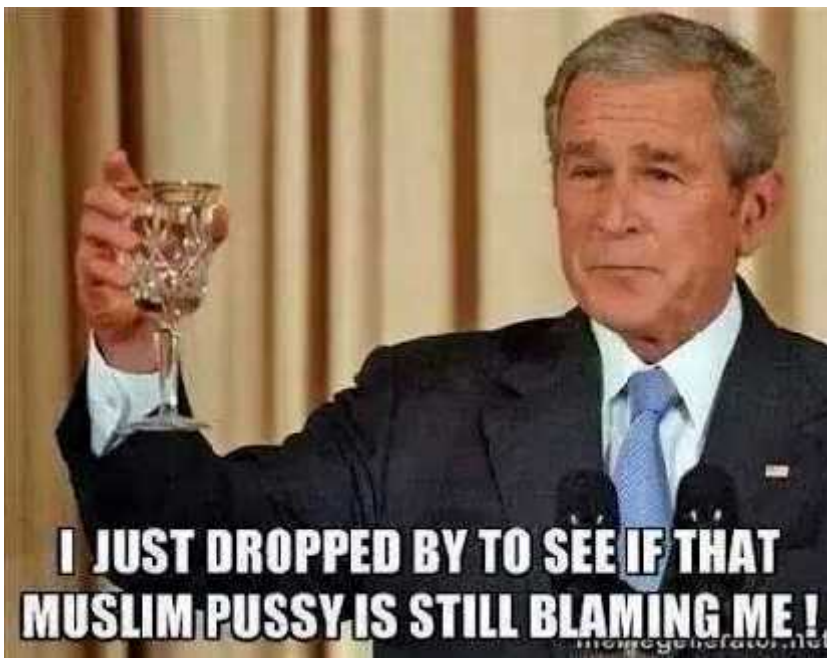

As for our politicians, we see the corrupt ones elected by ignorant voters, many times for the color of their skin. Sadly enough, many Americans look for what the government can do for them instead of what will make this country stronger. Further, if I saw as many liberals or democrats contribute to our police, fire department personnel or military as conservatives, I would probably have a better view of them. Sadly, they do not. They are into self-service versus selfless service.

Finally, Americans recently voted and it was not to endorse the GOP but rather to object to President Obama and his evil ways along with those who support him. The GOP should remember this as they need to listen to mainstream America and start kicking ass. Don't look at politics as a career, but rather a short term mission you were sent to accomplish.

MOTIVATION

TRAINING:

AIT CLASS

During November, we ran two Advanced Individual Tactics courses and both went well despite intermittent rain. Students learned about the pros and cons of gun lights and hand held lights and why hand-held lights are important to know and use. The skilled use of the hand-held light is also directly impacted on shooting with a dominant hand only.

Next, students learned that more lumens is better. Better to ID human shapes and better to discriminate. The further out you can engage, the better. The faster you can articulate the person is a threat, the better.

We started with close in ranges (7 yards) and then moved as far out as 60 with the handgun. Students further learned that day sights may not make good night sights. Further, some techniques of holding the light will help when the light is to the rear of the pistol, illuminating the sights. Others will not as the light is forward of the sights and the sights much stand alone and work.

Both classes were mainly comprised of previous CSAT students and I received a great deal of positive feedback.

URBAN DEFENSE CLASS

Two of my Urban Defense Classes have filled and the third is almost there. My intent is to help you set up neighborhood defense plan for natural or manmade disasters. This will include linking up and coordinating efforts with police.

Further, many of you have break-away/bug-out bags and this will give you chance to test them and your equipment from ranges of 0-300 yards. You will “bail-out” with your equipment for extended distances and engage multiple targets. You will find out if your gear is too heavy, if you packed correctly, layered it correctly and if your weapons systems are suitable for the situation.

My intent on the physical is for all of, including me to keep in shape. If you cannot get to the fight, you cannot fight. If you cannot get all your gear to the fight, the same applies. I am generally keeping the class to 12 students, two teams of six and that way the scenarios will flow smoothly.

RANGE UPDATE:

Graveled the “T” intersection of the shoot house and also most of the plate rack pit. Also, I am working on pushing sniper hill out to 1,000 yards.
