**OCTOBER 2014**

## **INFORMATION LETTER/UPDATE:**

### **GENERAL INFORMATION:**

We completed filming a Land Navigation DVD this month with the help of Panteao's crew. Further, I was able to contribute to an eight DVD Survival series that will be coming out in December. With all the decline going on in the world, we figured it would be a great time to put one out a survival series. It will cover all the survival aspects from water and food collection to how to handle civil unrest.

### **LE CORNER**

Bill Kennedy has agreed to run Basic and Advanced SWAT classes using the CSAT Lesson Plans under his own training company at CSAT. He will be posting the 2015 classes shortly and will handle all questions and finances for the courses. He is a top notch instructor and will ensure the quality control is there.

### **NEW COURSE**

I have been asked to put together an Urban Defense Course over the past few years. I went through Katrina along with several other minor disasters and developed certain SOP's to deal with short, medium and long term problems.

Five years ago I would not have considered doing a course like this, but with the current direction of our government and the world, I see it as being a wise and prudent thing to do. I live by the motto, "I am not paranoid, I am prepared." With that the course would cover short moves to your house, away from your house, neighborhood defense, equipment, caches, etc.

### **MONTHLY INSPIRATION**

### **MONTHLY PERSPECTIVE:**

I start my web letters early in the month, but I have found that liberals and democrats provide too many bad story lines to keep up with. I have limited myself to watching Fox News only two times a week as I get angry at the ignorance that is rampant in our country.

America voted for a black man twice, not for his qualifications but rather for his skin color. It shows several things. First, we have raised a generation of TV believing idiots. If the liberal media prints it, it is true. Next, our president is living proof that affirmative action does not work. No substance, honor, integrity or experience and America is paying for it. Liberals and the media polished a turd and many Americans bought into it. Do not subsidize education. Either you earn it or you don't. Do away with affirmative action. If we continue with affirmative action, we dumb down our society.

While trying to pull together a coalition to fight ISIS, all our allies distance themselves from us as we know our president is unreliable and without any real leadership skills. Liberals will argue our President's accomplishments as they are "stubborn stupid." I use this term for individuals who argue a losing position out of either pride or ignorance.

Now the president finally understands that it is necessary to sometimes be the world's policeman as most countries will sit back and watch will chaos reigns.

I also have a problem giving countries that will not fight for themselves our best technology and equipment. This includes assault rifles to heavy weapons and equipment. We should only give them bolt or lever action rifles until they prove themselves capable. We may have to fight them one day and do not want to face our equal in the weapons field.

It is sickening to watch ISIS drive around in vehicles better than the average American drives because we gave them to a country of people that are backward and will not stand up for themselves. We do not have to save everyone in the world. Some species and races were meant to die out.

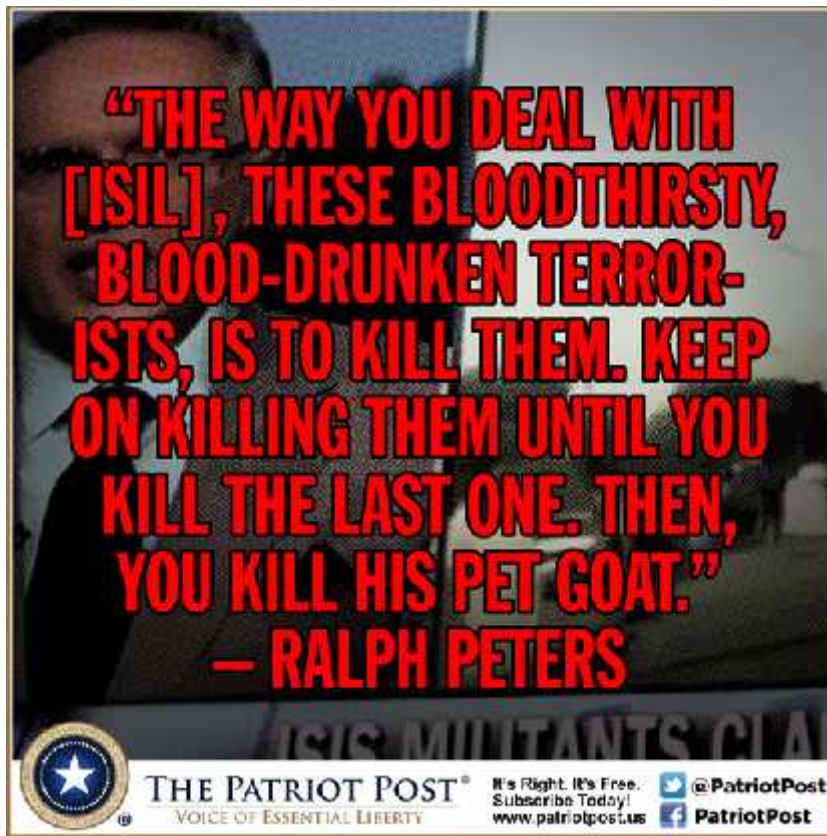

An infographic with a black background and white text. On the right side, there is a white silhouette of a mosque with a crescent moon and star above it. The text "ISLAM" is written in a large, stylized font, with "A RELIGION OF PEACE" written below it in a smaller font. At the bottom right, the website "askdrbrown.org" is listed. On the left side, there is a list of 20 terrorist attacks, each followed by "were Muslims".

Reference Muslim countries that do not respect us, cut their money and pull our bases out. This goes for Turkey. We should let them know they cannot have it both ways.

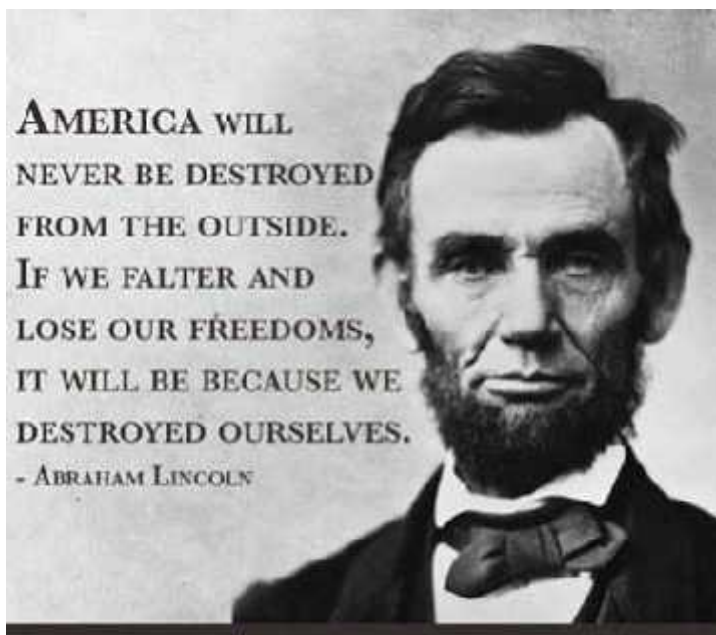

### EBOLA AND AFRICA

It seems that our president wants to send 3,000 service people to Africa to help with the Ebola outbreak. Now there is news of health workers being killed. Sounds like a high threat area we do not need to go to. President Clinton let 800,000 people die in Rwanda during his presidency and most were killed with machetes and clubs. If liberals want to save Africans, send their kids. Africa has not brought much to world except for AIDS and Ebola. They have not produced any monuments or contributed to civilization and most are still living in grass huts and mud huts. We should have a strategy and policy when trying to save all the "puppies" in the world. As I have said, if liberal believe in that much, volunteer their kids. Maybe some races and species should die on the vine?

**REFERENCE FERGUSON:**

The drama continues along with the investigation. Eric Holder and the Federal Race machine are on top of it....

Got the word today that Eric Holder is resigning-good riddance...

### DEMOCRATS AND GOVERNOR RICK PERRY

Liberals and Democrats picked the wrong fight here in Texas. We tolerate them, but they crossed a line. Rosemary Lehmberg should have quietly resigned and gone to Detox or AA after her incident. As an American and Texan, I don't want a drunk handling taxpayer money.

**2nd AMENDMENT**

**They Did NOT Own Guns**

With the recent attacks by the media accusing police of being "Militarized" for wearing protective gear and using specialized equipment, It should be obvious but I will explain the reasons why...

we wear these	_____	because rioters throw these
		
We have these	_____	Because criminals have these
		
We wear these	_____	to stop these
		
These do not stop these	_____	so we use these
		

I have been asked to state my view of “open handgun carry” by a reader. In short, I am against it.

I am for concealed carry because you never know who is armed. Also, it is harder to take a gun away from someone when you don’t know they have it. Stripping an open carried weapon is easy.

What about if someone decides to fight you and pushes you? Now you have to go hand to hand with a weapon in the mix that is open to both parties.

People who open carry are generally not trained in weapon retention and all they are doing is advertising they have a weapon. This does not deter or intimidate me or harden criminals. All it lets them know is who to knock out first to do a battle field recovery.

ON A LIGHTER NOTE:

Sometimes you just have to close your eyes, count to ten, take a deep breath, remind yourself that you wouldn't look good in prison stripes and just smile at that dumbass and walk away.
