## **MONTHLY PERSPECTIVE:**

### **AMERICA**

America is in a slump and has been for some time. The slump actually accelerates on the final tour of a democratic president. Democrats like to gut the military. They make minorities a priority. They weaken the internal structure of our government by seeding it with lack luster losers. They allow our foreign policy to deteriorate and as a result, our country is laughed at by all the other world leaders. Despite all this, we have what it takes to get back on the right track.

We can look at this course righting in what you can do or have an impact on.

- First as a parent, you can influence your kids to walk the right course. Teach them a life and work ethic. Teach them the realities of life and not to whine and what it takes to be successful.
- Once your kids are successful, teach them how to give back.
- Business owners can cultivate a positive conservative attitude in their sphere of influence. This means creating a positive work ethic and environment internally and then do business with other like-minded people.
- Take back the media institutions and hold them accountable.
- Hold colleges accountable for the curriculums they teach.

It does not have to be an overt fight, it can be a low key covert fight and liberals will learn they should have scraped that Obama sticker off their car before they came to a job interview.

Americans need to be held accountable for their actions. In a few years, no one will own up to having voted for Obama. That is how it works. Democrats and liberals have betrayed our country time and time again and they think there is no accountability. As a business owner and veteran, I will remember.

It is said that the “little victories” add up and we cannot make this change all at once. It has to be incremental. Be the change you want to see in the world.

## **WAR OF CULTURES/CIVILIZATION**

The U.S is a first rate power fighting an eight rate power (ISIS). Except that we are not fighting. We are just moderating at this point.

Our president, through his inaction confirms he is a Muslim or Muslim sympathizer. Islam is not our friend and never will be. We have too many grass root beliefs that are different. Liberals and the president ignore this and put our country in jeopardy with the appeasement at all cost attitude.

As for Islam, they hate us and we should understand this. Good Americans do not believe in screwing little boys, goats, child molestation or killing/abusing our women. I will not

associate or do business with anyone that does. Nor will not quietly condone it. We should not pretend to like them.

Due to our liberal beliefs and our leadership's lack of will to fight, we will be attacked. We allow Islamic forces to recruit, train, rehearse and carry out attacks in our country. We might as well be Europe.

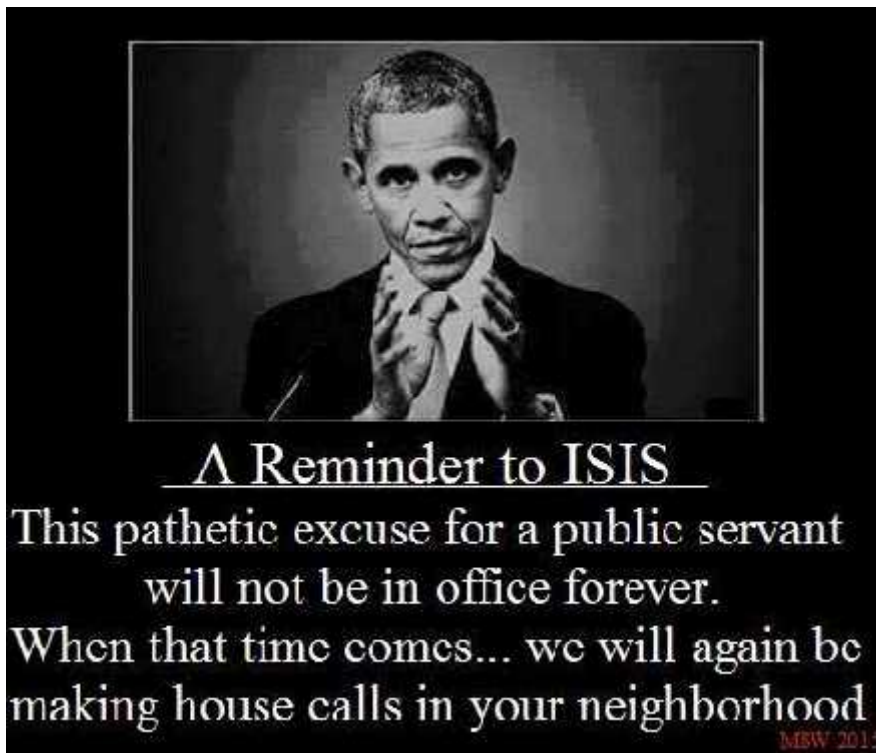

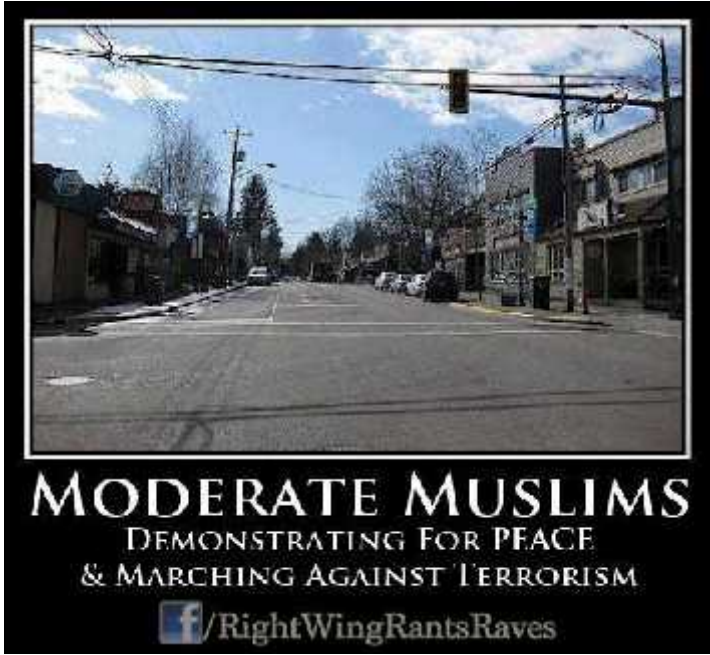

We should be proud that we are Americans and that we stand for something and are willing to fight for it. Unlike the Iraqis who stand for nothing and wish to keep their disgusting way of life. They chose not to evolve and I am fine with this. Give them limited money and 3<sup>rd</sup> rate arms to protect themselves.

As for our past, we should not be ashamed of it. We should acknowledge it, learn from it and move forward. All kids make mistakes and they need to learn and grow and move on. America is in the same boat. We are not perfect, but need to strive to do better in ourselves, for our families and country.

The liberals in our country are arrogant, ignorant, spoiled and lazy. They do not represent the real and true America that was founded on hard work and dedicated to solid principles of integrity and good will.

**STATE DEPARTMENT AND RUNNING GUNS**

This is not a good admission for a diplomatic organization.

**2nd AMENDMENT**

This sign

Did not stop this muslim  
asshole

From killing four U.S. Marines.  
Remember that.

President Obama says  
ISIS terrorists are driven  
by a lack of "prosperity  
and dignity."

"Ideologies are not  
defeated with guns",  
Obama says.

In Chattanooga, this  
terrorist was a college  
graduate with an electrical  
engineering degree, in a  
prosperous neighborhood.  
He had guns.  
Our Marines didn't.

**MOTIVATION**

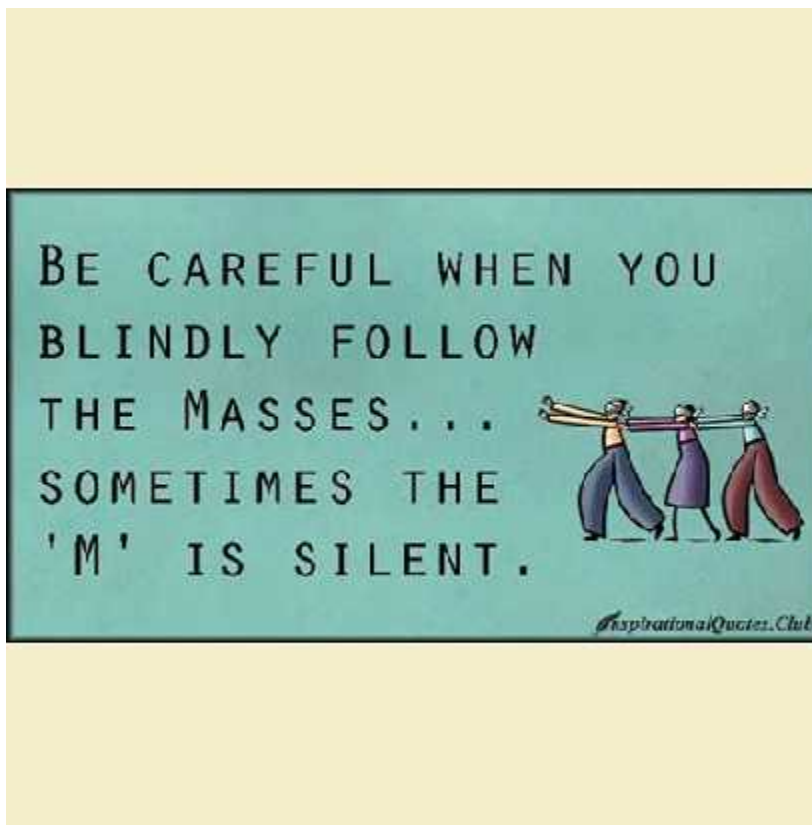

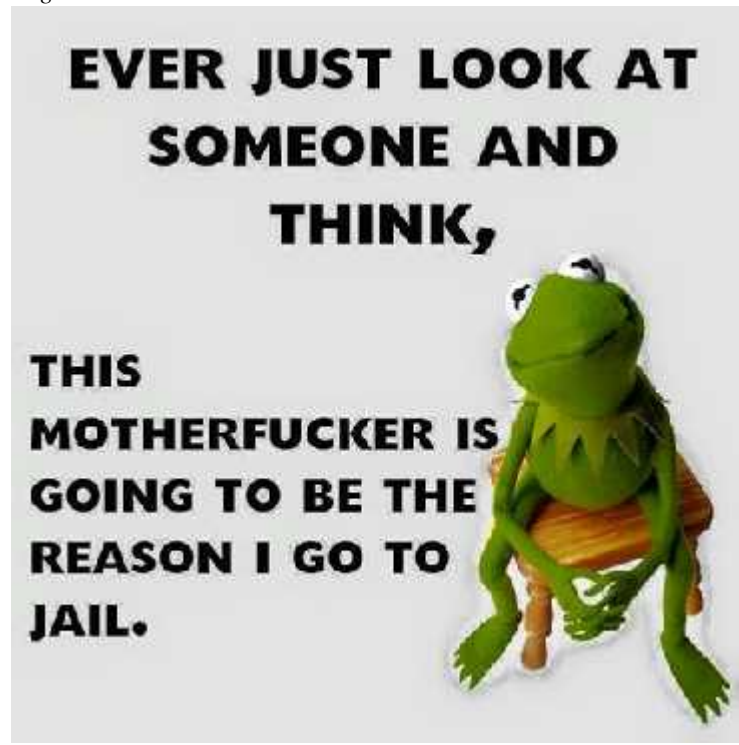

**ON A LIGHTER NOTE:**

**Someone finally found a job for Al Sharpton !**

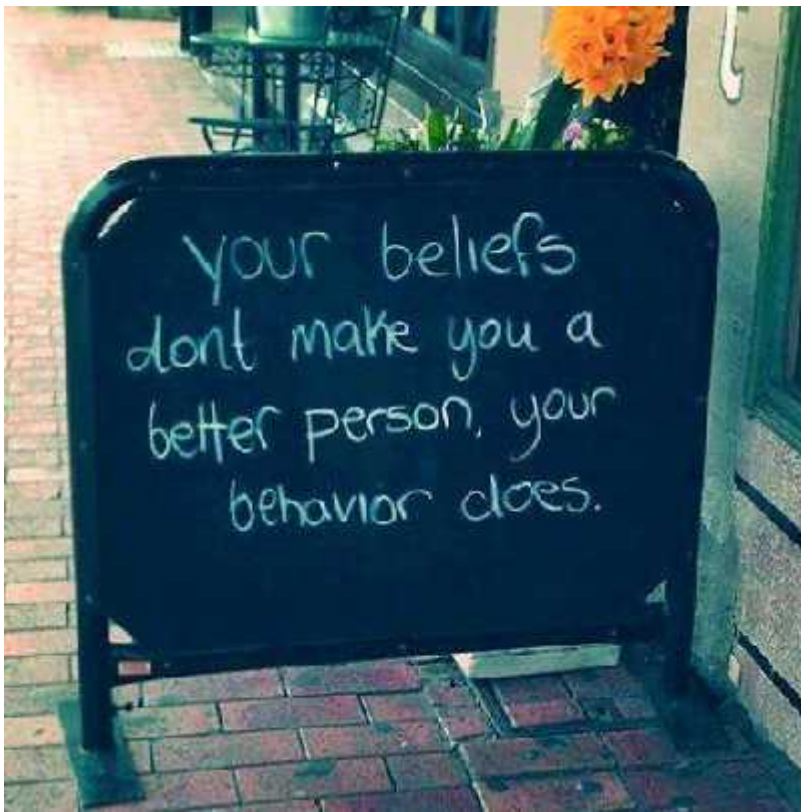

**I'm inbred!**

CNN Breaking News: South Carolina to ban the sale of Tylenol in bottles because they fear picking the cotton from the bottle may represent racism and slavery.

**Common sense is not  
a gift, it's a punishment.  
Because you have to  
deal with everyone  
who doesn't have it.**

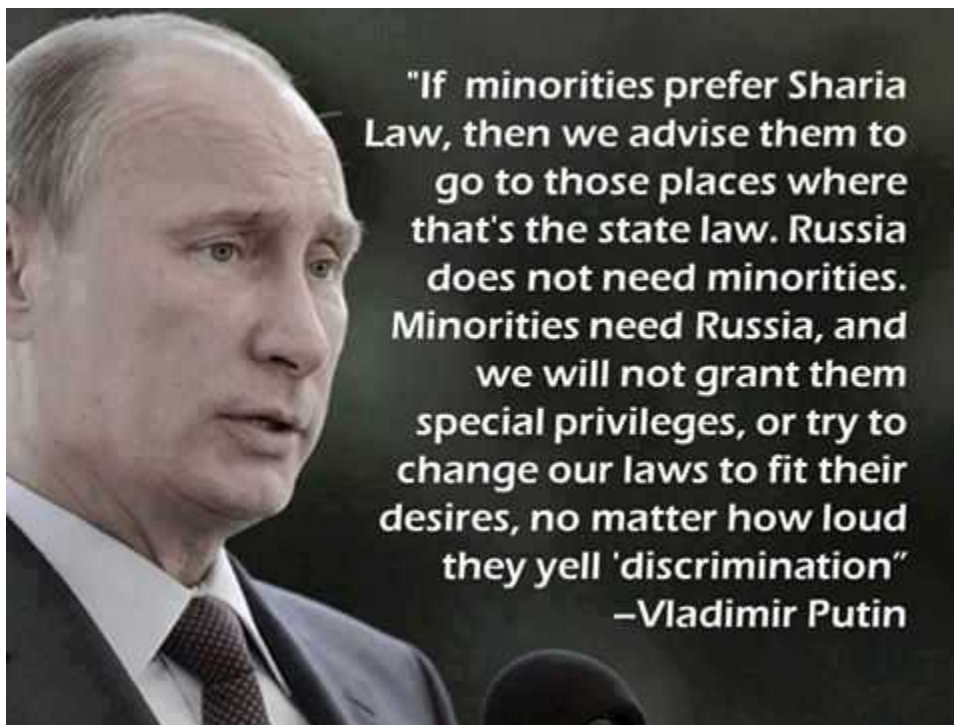

**Think About It -  
Laugh For The Day**

The federal government, which has "Tomahawk" cruise missiles and "Apache," "Blackhawk," "Klowa" and "Lakota" helicopters - and used the code name "Geronimo" in the attack that killed Osama bin Laden, officially objects to the name of the Washington Redskins.

### **NEW SHOOTERS CORNER**

Do not be afraid to take several basic courses from different instructors or to the same course twice if it is a good one. I have many students that do that and build solid muscle memory and their shooting skills progress at a faster rate.

### **RANGE UPDATE:**

Starting to work on Sniper Hill...

### **CLASSROOM/ LODGE:**

NO CHANGES

### **TRAINING UPDATES:**

Every year I add 1-2 new courses or refine old ones. This keeps me sharp and helps me recall the tactics and techniques that have kept me alive. I can pass them on through these courses.

For 2016, I plan on adding two courses. The first will be an **Urban Defense 2**. Key additions will be physical to include the Obstacle Course, Dummy Drags, Land Navigation and low light. The basic Urban Defense will be a prerequisite along with a case by case admittance. If you were weak in the first Urban Defense, you will not be allowed in unless you can

demonstrate improved fitness. I will also send you an additional workout sheet with objectives to help you survive the O course.

The next course I want to run will be a three day Close Quarter Combative course that deal with the hand gun, knife and basic hand combat skills. This would help close the circle on CSAT training. Currently I teach Long Range Hunter for extended distances, Rifle and pistol for intermediate and Close Quarter Combat would round out the curriculum.

With this goal in mind, I need to work on some techniques. I have the pistol drills I want to work on, knife and hand combat is what I need to research so I can put it into a comprehensive package that is easy to learn and teach.

### **EQUIPMENT:**

**FOR FUTURE CLASSES, I WILL REQUIRE ALL INSTRUCTORS STUDENTS TO EITHER PURCHASE ONE BEFORE OR DURING THE CLASS.**

**First, I believe that instructors need to have tools of the trade. The first couple of hours in a rifle class is zeroing. I used to supply tools, but spent hundreds of dollars each year on them only to have them lost, broken, taken home. This tool is simple and will not break. Also, you can fix/adjust a host of problems with a student's rifle/optics.**
