**FEBRUARY 2015**

**INFORMATION LETTER/UPDATE:**

**GENERAL INFORMATION:**

Great month getting back into the groove. The weather in January was colder and wetter than normal, but we survived.

**MONTHLY INSPIRATION**

**MONTHLY PERSPECTIVE:**

**American Liberals are the JV of the Islamic world....**

They are immature, lazy and want something for nothing. So they voted for this lazy, self-serving loser who is modeled in their own image, not once, but twice. He has done nothing but divide America, lower her standing in the international community and make the world a more dangerous place. Liberals are themselves dangerous because of their arrogance and ignorance. I put them in the same place as mainstream Islam as they are too weak to put the extremists in their ranks, in their place.

Obama is an ignorant loser that attempts to appease a religion that is bent on taking over the world and killing all who do not convert.

Liberals live for what can I get today. Conservatives live to make the world better today for everyone and for tomorrow and their children.

**The best summary I have heard:**

**“The heartbreaking tragedy that unfolded in Paris today is the result of a perverted, hateful ideology that has no place in the civilized world,”**

Moderate Islam does not stand up the people who do evil in their name. That makes them as guilty and just as weak.

Our president is an embarrassment to our nation. He represents the typical shit-talking liberals in America that have no balls and no class. Obama is representing them well...

When we allow evil to grow to an extent that we cannot control it with conventional forces, then we must take extreme measures. The decision not to invade Japan was partly due to the imminent loss of life. This is why the atomic bomb was used.

Page 5

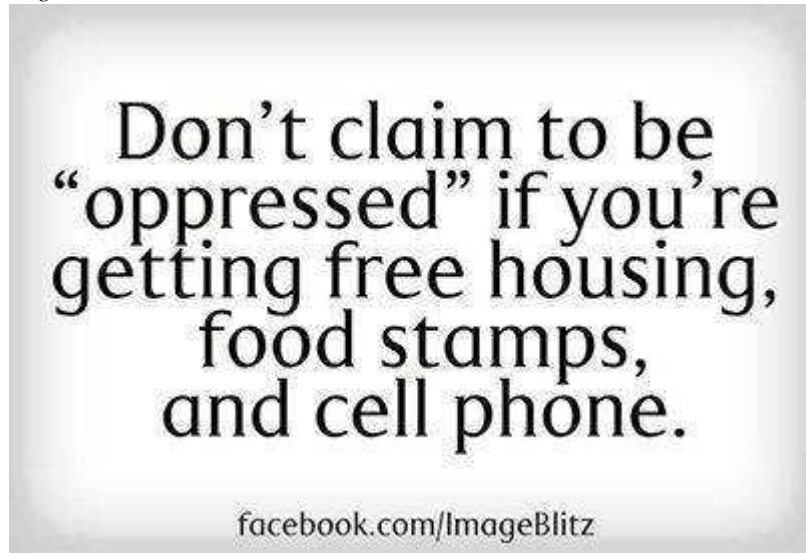

Our leaders may have to make the same decision one day because they fail to treat the problem now. We must contain the cancer or face it later when it spreads.

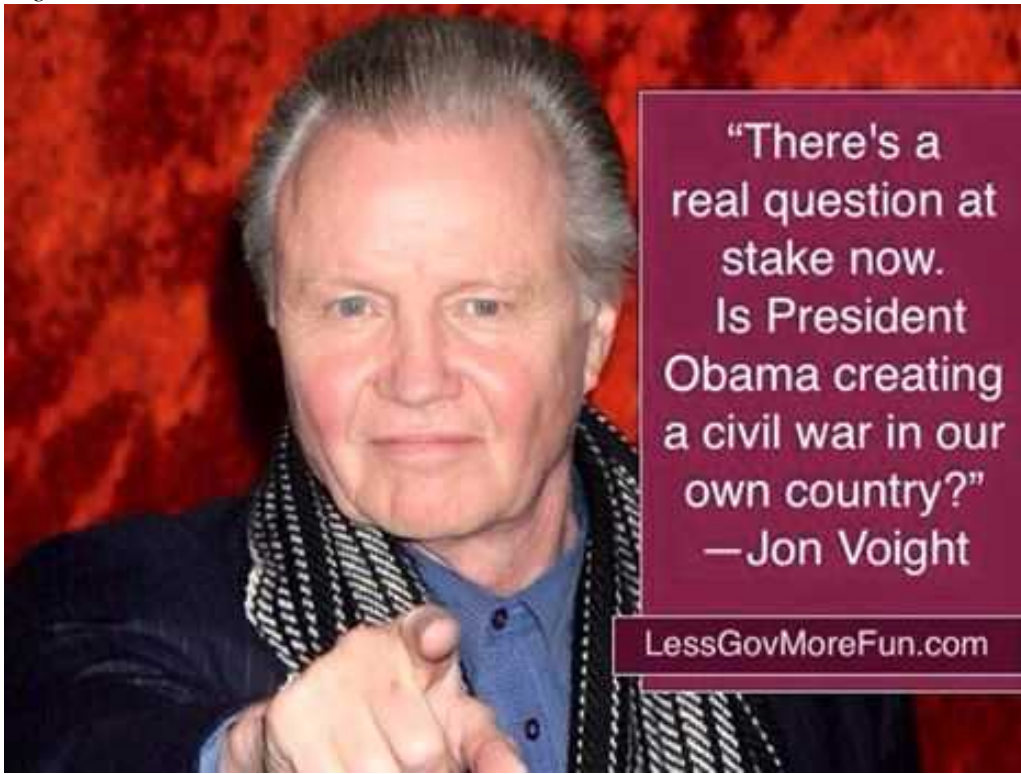

**The Racial divide in America has grown and our president is responsible for it.**

Our president wishes to make the above group of people, equal Americans. They are not. With all the opportunities we have in America, they choose to be ignorant and sniveling class of people. Most often you cannot fix stupid...

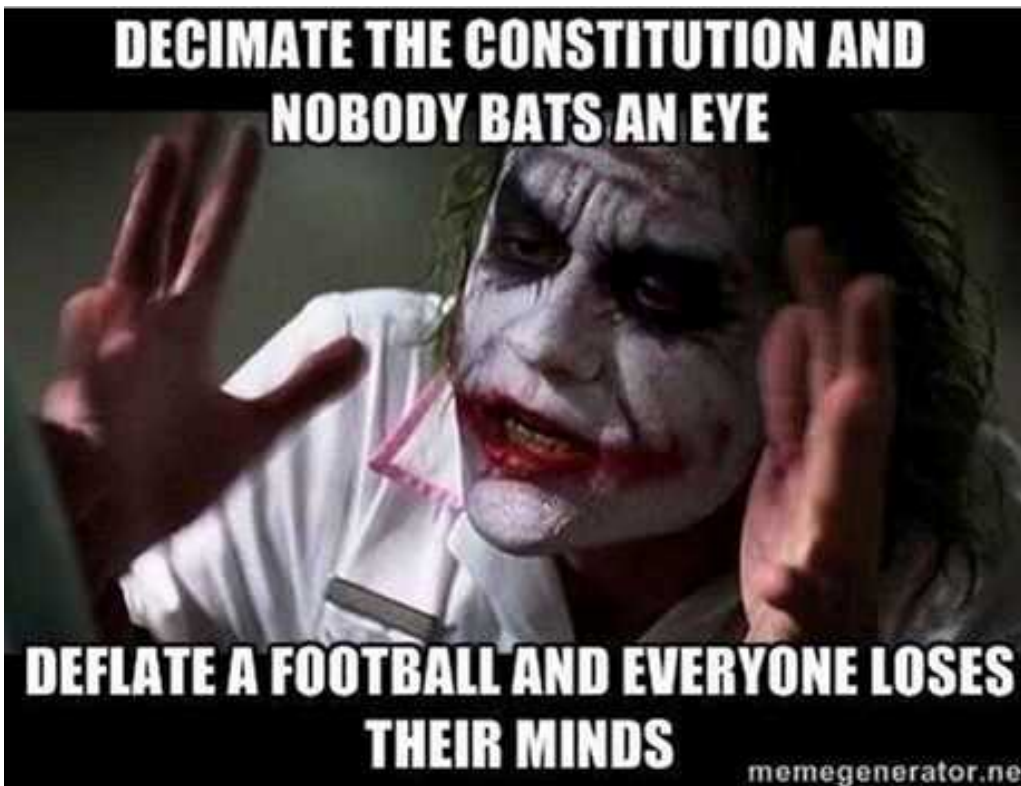

You cannot make a better America by signing it into law. You must promote a system where Americans earn it and contribute to a better America. You would understand that if you did not play the race card yourself on your way to the White House.

“There's a real question at stake now. Is President Obama creating a civil war in our own country?”

## 2nd AMENDMENT

**"So what's the problem with national gun registration?"**

Turkey: Gun Registration 1911  
1915-1923: Two million Armenians  
and other Christians exterminated on  
death marches with no food or water.

USSR: Tens of millions died in slave-labor Gulag death camps  
after total gun confiscation.

The confiscation was only  
possible because of gun  
registration laws.

Police Battalion 101 in "action" in Poland

Bracken

In Poland, 1940s: only 100 German military policeman were  
needed to round up towns of a thousand Jews, executing them  
on one day, or "deporting" them to death camps. How was this  
possible? Because they were previously disarmed, using a  
"common sense" gun registration law as the tool of genocide.

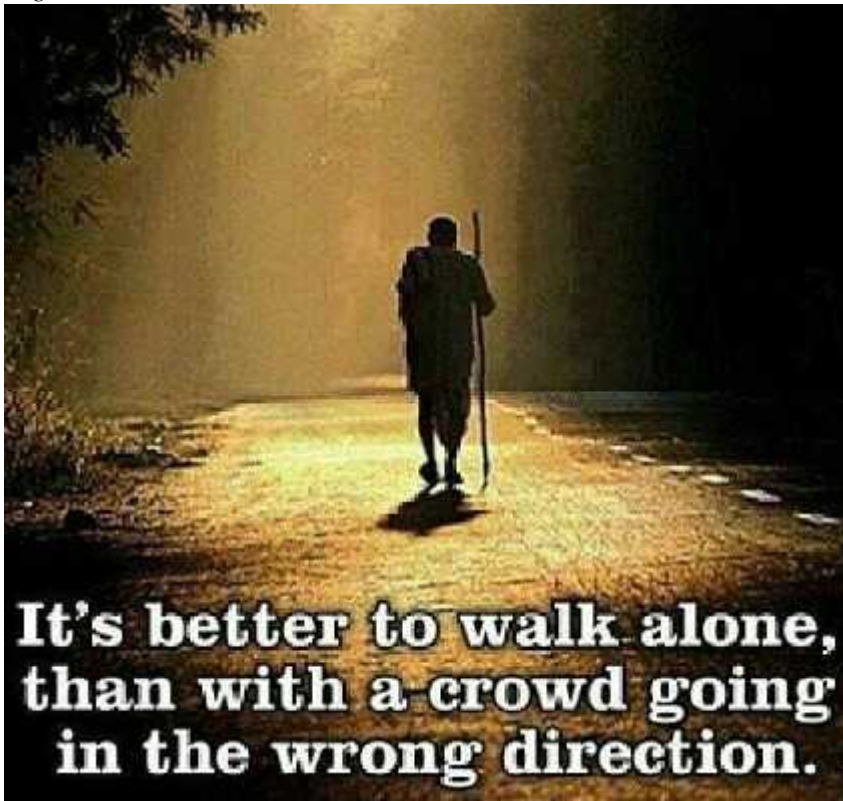

This disarmament and genocide formula was also applied in  
China, Cuba, Uganda, Guatemala, Cambodia, Rwanda and many  
other nations. In each case, the mass-murder was preceded by  
national gun registration passed in the name of "public safety."

## **TRAINING:**

**Instructor Students** come ready to perform. While the January instructor class was full of professionals, their shooting skills were lacking and they failed to practice before they came. With that, I ended teaching most of the two-day class as they were not prepared. They made good line coaches and did not get to practice their teaching and demonstration skills. Their certificates reflected accordingly.

## **NEW SHOOTERS CORNER**

I was to start addressing issues or questions for new shooters as that is important to the shooting sports industry. We must cultivate future generations for the fire to stay lit.

Shoot me any topics that you are interested in and I will get to work on it in future web letters.

My first thought is to choose a pistol with the three following features:

- Grip that fits your hand
- Same Trigger pull with each shot
- Caliber you can manage

You can find bullets 9mm and above that will do the job. Ammo selection and price will also impact how much you shoot. If you have one trigger pull, you learn it much faster. If you have a comfortable grip, you will not fight it with each shot. You can add the sights you like later.

## **RANGE UPDATE:**

We have begun work on sniper hill to push it out to 1,000 yards. We did the rough dirt work and have been busy moving dirt and creating water channels to help the water flow off.

Probably around June it will dry enough to start the final phase and create the channel to 900, 1,000.

**A note reference the Columbine video clip in my Combat Mindset DVD:**

**The Columbine Massacre took place on April 20, 1999.**

**A few years afterward I was sent a short video clip someone mined from the internet of two active shooters in a high school, similar to the Columbine scenario and I knew it was a reenactment. It turns out it was from a movie, "Zero Day," which I have not watched or known about until recently.**

**The discrepancy was brought to my attention through a viewer on amazon who was not happy that I referred to it as the Columbine video. I have not watched the Combat Mindset DVD in years, but I took his word for it and am working on the corrections.**

**"Zero Day," was a movie released 3 September 2003 depicting two troubled youths who hated their High School and went on a shooting spree according to Wikipedia. More can be read there about the director and where he took his inspiration (Columbine). The movie was released four years after Columbine and I want to give credit to Ben Coccio who directed the movie.**

**I want to correct anything I have said or may have been interpreted as this being the Columbine Video. It is not. It was inspired by Columbine according to Wikipedia. It is a reenactment of a similar incident and a good one at that. My plan is to continue using**

January 28, 2015

it in my presentations.

In my mind, it is a recreated the Columbine incident using much of the same details. Two shooters in a High School killing unarmed classmates (12 students in Zero Day/12 students and one teacher at Columbine). I have been using it as video in my Combat Mindset presentations for years to drive the point home, waiting is not an option for LE.

As minor as I consider it, I would prefer accuracy in my works and in my presentations. Once notified, I immediately contacted Fernando to make adjustments on the streaming videos and to fix the next master Combat Mindset DVD and any verbal discrepancies.

Again, I have stated in all my Combat Mindset presentations, this is a recreation of Columbine, which I still believe it to be. It is not a Columbine video. Sorry for any issues/heartburn this has caused.
