MONTHLY PERSPECTIVE:

BALITIMORE

"If blacks spent as much time worrying about being good Americans as they do about being black this country would be golden."

From a retired Pawn Broker...

From a friend....

The city of Baltimore received over \$1.8 billion from President Barack Obama's stimulus law, including \$467.1 million to invest in education and \$26.5 million for crime prevention.

President Obama claimed last Tuesday that if the Republican-controlled Congress would implement his policies to make "massive investments in urban communities," they could "make a difference right now" in the city, currently in upheaval following the death of Freddie Gray.

However, a Washington Free Beacon analysis found that the Obama administration and Democratically-controlled Congress did make a "massive" investment into Baltimore, appropriating \$1,831,768,487 though the American Recovery and Reinvestment Act (ARRA), commonly known as the stimulus.

The Mayor of Baltimore is just another democratic leech. She put the lives of shit-head thug rioters over the lives of good police officers. She should be put in jail for allowing her officers to be assaulted. This goes for the Chief of Police as well. If he did not stand up for his officers, he is a worthless turd.

Yes, just another democratic ghetto. 9 dead and 29 shootings over Memorial Day Weekend.

Police officers do not lose their "Right to Life" when they put on the uniform. Their lives are as or more important as they are a force multiplier when it comes to saving lives. It requires a special person to stand up and take the challenge and all the bullshit that comes with it.

Police officers are used as a lightning rod for by the current ass clown political powers to be. Democrats and liberals will sacrifice them, just like the military to fit their political agendas.

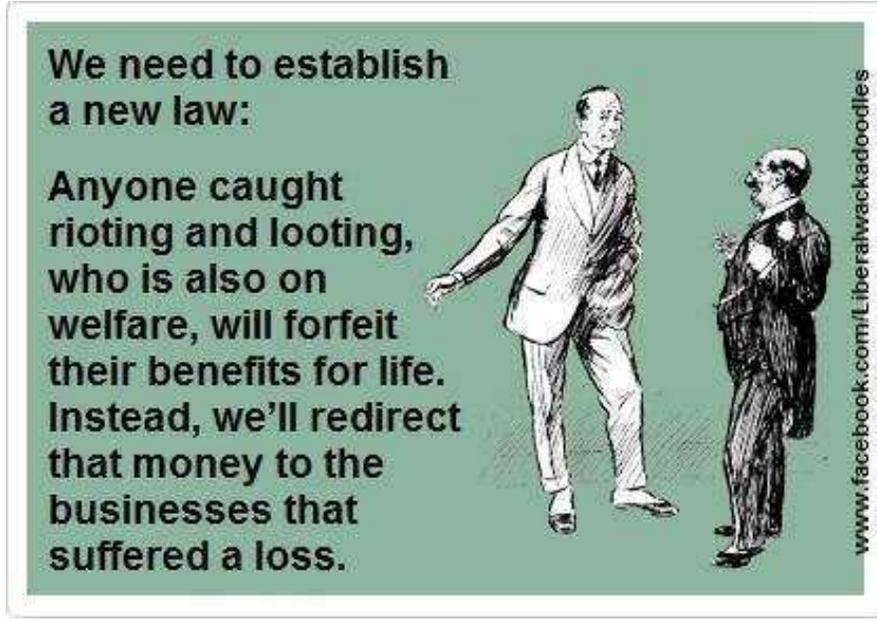

As for the thug that dies, I have no issues with him being dead. Baltimore is probably a safer place because he is. How the corrupt politicians are handling it is criminal.

Reference allowing those turds to loot, citizens should sue the Mayor for allowing them to riot. When police were getting pelted with rocks and bricks, police snipers shooting the savages in the faces. Let them die with bricks in their hands. That would have stopped the riots in short order and sent a message they understand.

One of the two people above earned their right to be in the White House. The other is a racist race baiting asshole.....

AMERICAN LAW ENFORCEMENT-Go Garland PD....

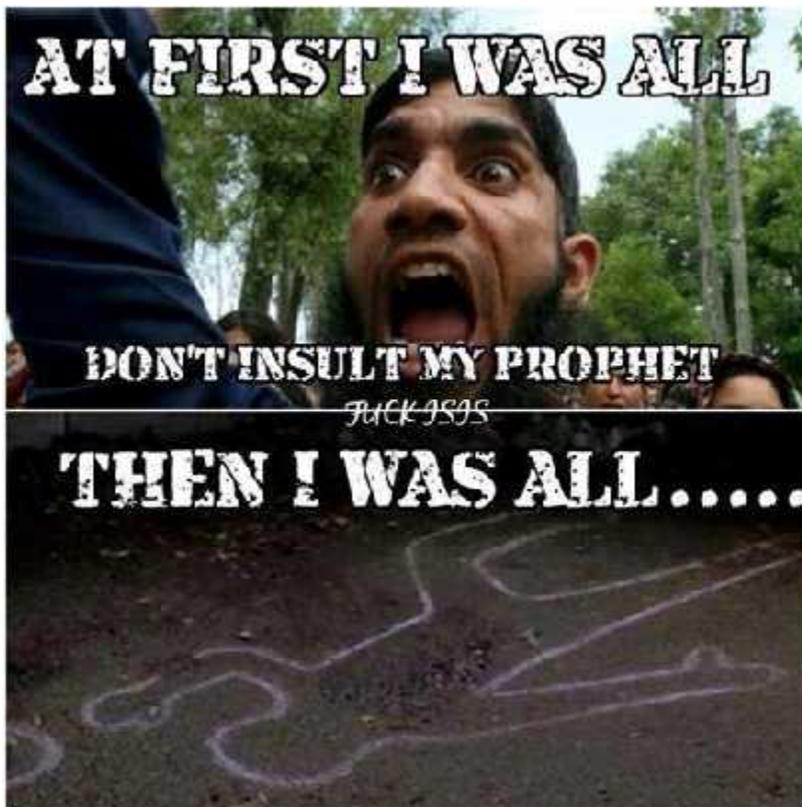

American law enforcement has been vilified by liberals and the Democratic Party. Having worked in LE years ago and seeing it now, they are more professional and less violent than ever before. They have more less-lethal now than ever before. In the old days they would not hesitate to split your skull with a piece of second-growth hickory or a metal flash light. They

have become much more passive and it gets law enforcement officers hurt in many instances because they hesitate.

With all this black/white bullshit going on, officers are going to be less inclined to put hands on or shoot a black thug when they need to.

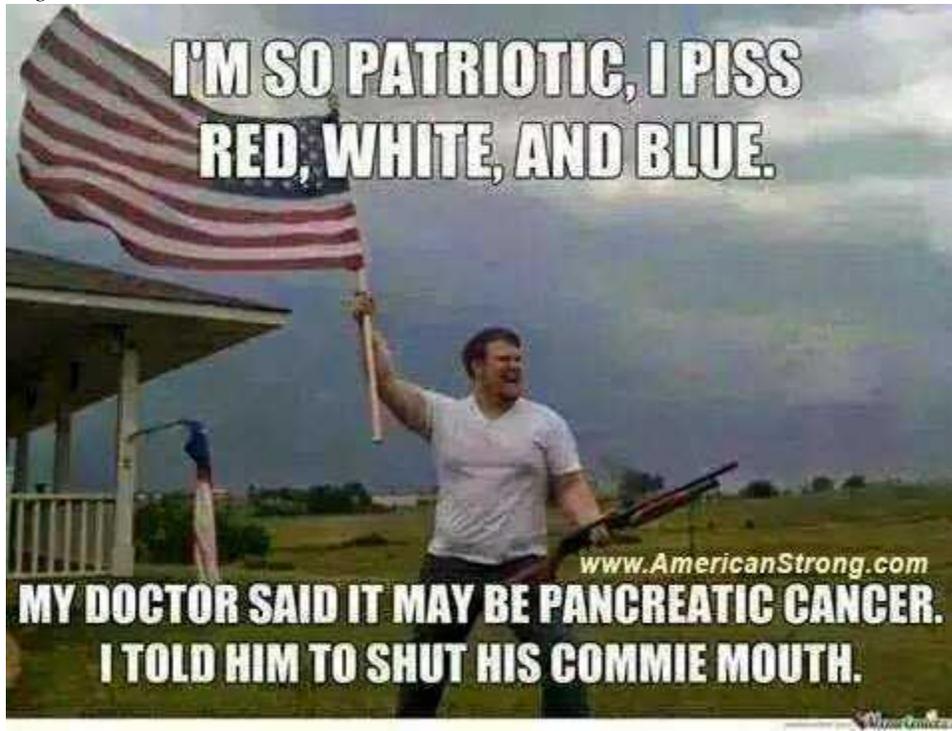

OUR STATE DEPARTMENT....

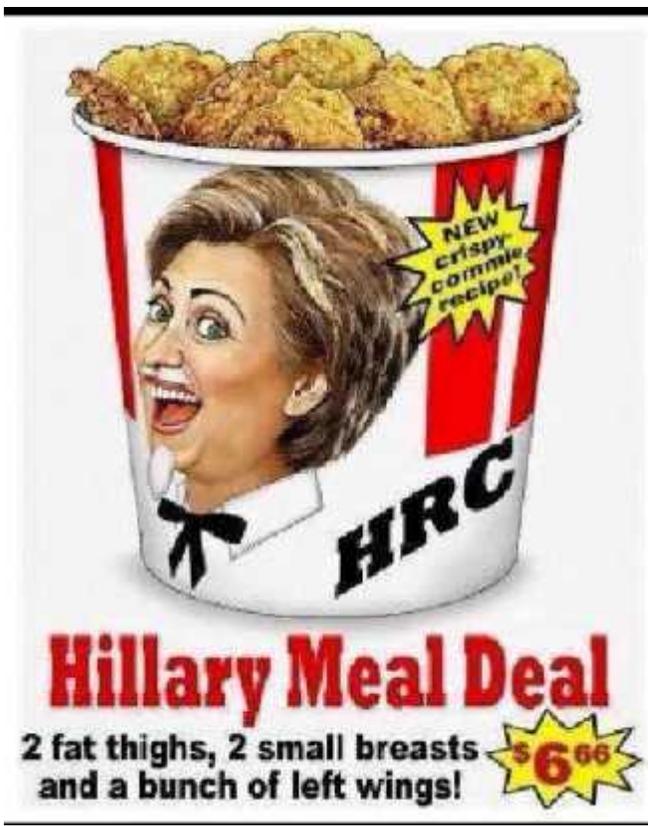

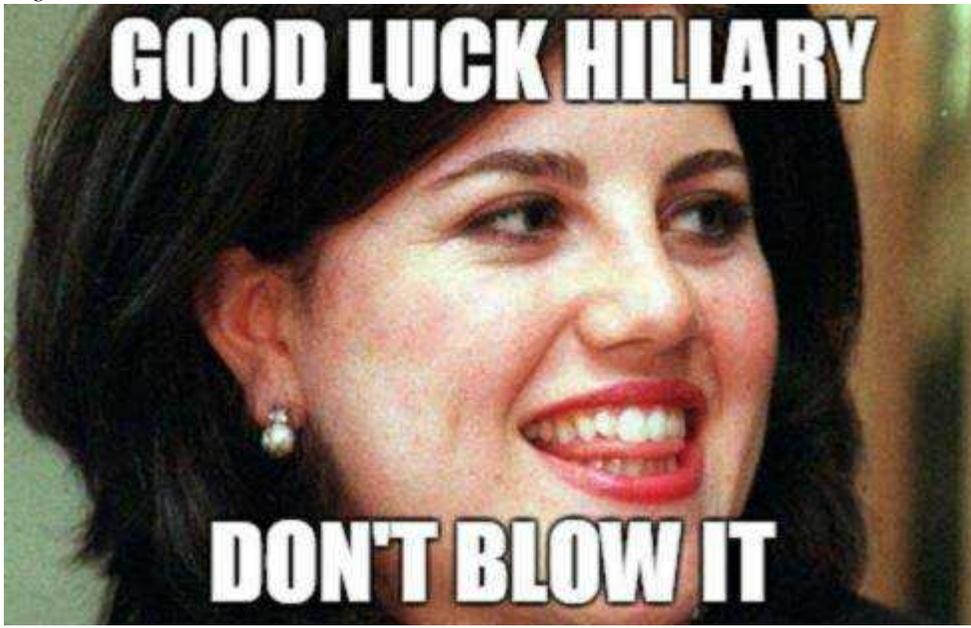

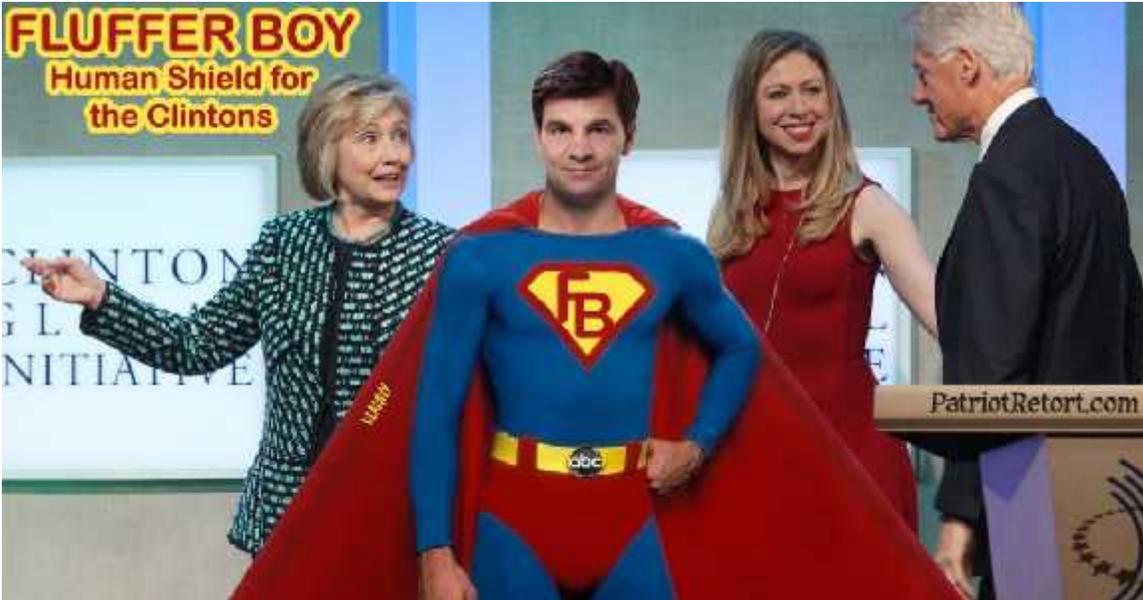

HILLARY: THE CLINTON CRIME FAMILY

Yep, the Clinton Crime Family is alive and doing well. Imagine if Hillary just took the time to do her job well and not have to constantly lie, remember her lies and then make up new ones.

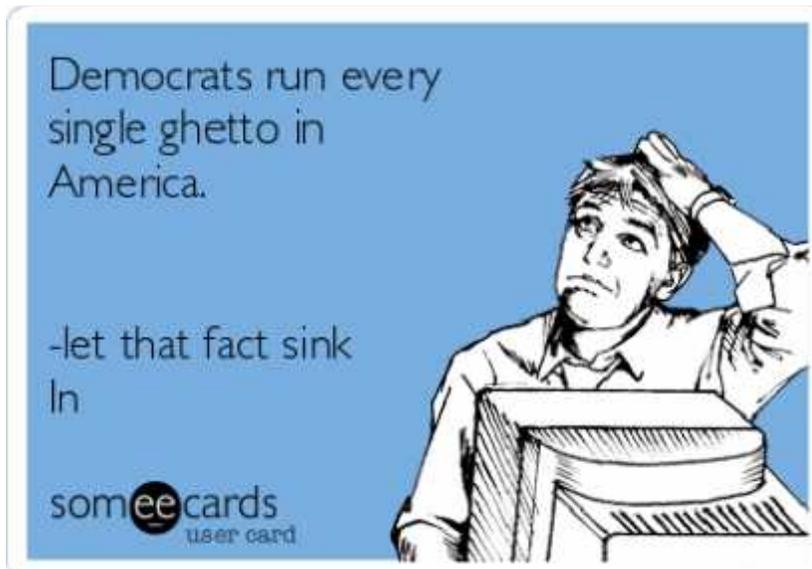

DEMOCRATS-THE TRUE SLAVE OWNERS....

If you want to see who is keeping the Black American down, look at the Democratic Party. They promote a dependent welfare class of citizen who is not self-reliant and believes they need government support to survive. Blacks are simply a voter tool for the liberals and Democratic Party.

**If the government offered
as much support to people
starting small businesses
as it does to people who
refuse to work, America
may not be as screwed as it is**

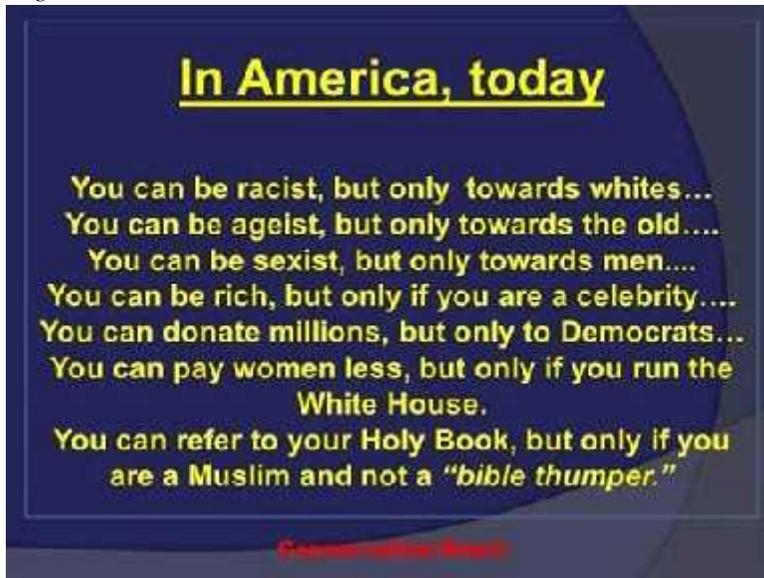

We keep hearing how Social Security is running out of money.

How come we never hear about Welfare running out of money?

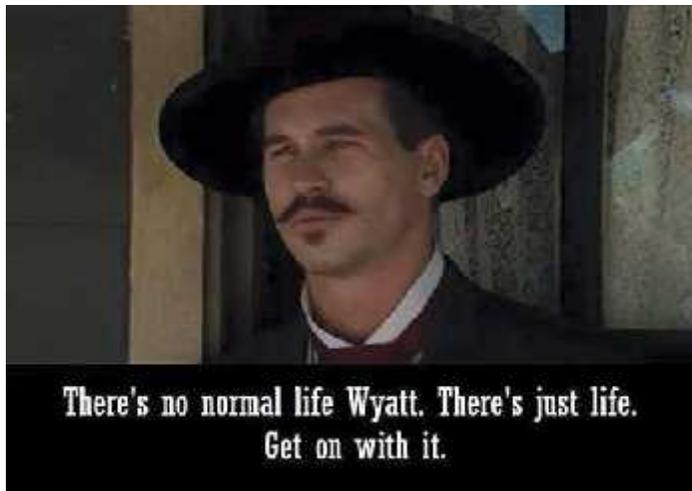

What's interesting is the first group worked for their money, but the second group didn't.

2nd AMENDMENT

their and our future.**

MOTIVATION

I'VE ALREADY
BEEN
THROUGH HELL.
SO GIVE IT YOUR
BEST SHOT.
NOT ONLY WILL
I SURVIVE,
I WILL WIN.

An old Cherokee told his grand-
son, "My son, there is a battle
between two wolves inside us all.

One is Evil. It is anger, jealousy,
greed, resentment, inferiority,
lies and ego. The other is Good.
It is joy, peace, love, hope, hum-
ility, kindness, empathy, & truth."

The boy thought about it, and
asked, "Grandfather, which wolf
wins?"

The old man quietly replied,
"The one you feed."

NEW SHOOTERS CORNER

New shooters need to understand all the hype and fluff out there with firearm instructors and training programs. A device has not been created on the internet to curb all the BS and videos from every wannabe instructor. You have to do your homework. There are a bunch of one-dimensional warriors out there coming back from overseas that only know how to pull a trigger. Teaching is another matter.

Check with other students you trust who have attended the class. Using the internet can be misleading. I rarely see instructor critiques that bring out any flaws or issues with instructors. Instructors develop cult followings of civilian students and in the end, most students have never done the job in question and don't know if the teachings are valid or not.

A solid indicator can be the instructor in question teaching law enforcement officers. LE are the most cynical group around and rightly so. They deal with a segment of the population that constantly lie to them. They can generally spot bullshit in short order. If they recommend someone, generally they are good instructor.

Finally, I just finished teaching my 4th Urban Defense Class. Doing the basics on demand is what it is all about. This means:

- Being able to load your rifle each and every time correctly
- Being able to hit your target in 1-2 shots
- Have solid shooting positions
- Understand line of sight, line of bore and not shooting your cover
- Be in a somewhat of a fit physical condition

Sometimes we have students down range as we are maneuvering. I control all aspects of the course for safety and the lanes have been vetted. Students coming from a flat range mentality have a great information leap to overcome when they attend the course.

Every shot must be accounted for. Why, when you have a student down range, you cannot skip a round off your cover as you lose control of the bullet. You cannot take 3-4 shots to hit your target because you want to shoot fast. You are accountable for those rounds.

Many times I heard rifles go click. This was from having a poor load procedure. One happened from not putting the rifle back together correctly after cleaning.

When you get into a cover position, it should be a solid shooting position in the case you need to shoot and protect your partner. Getting into a sloppy position means you do not have discipline or care enough to put the energy forward to make your best shot.

I will be doing more and advanced Urban Defense Classes in the future. Some will be physical, some will be low light. Taking the basic Urban Defense will be a requirement.

One student thought he could slide by in the class with no prior training. He missed 5 shots out of 5 on a 100 yard target when we started. I sent him home. He could not manipulate the weapon correctly and tried to BS his way into the course. He went away.

In short, have your shit squared away if you come to one of my advanced courses. Weapons need to be zeroed and ready for business when you arrive. Otherwise, I there is a good chance I will send you packing.....

I may also keep half your money as you wasted a slot for a potential student.
