**MONTHLY PERSPECTIVE:**

King Abdullah of Jordan is a true leader as was his father before him. He and his people walk a tight rope in the Arab world. Jordanians have had to constantly fight to maintain their way of life. They have had to battle the Palestinians who have been kicked out of every country in the region along with other terrorist organizations. Jordan is our bridge to the Middle East. If we if we lose them, the region will implode.

The King did not hold back in his response to the ISIL terrorists. He sentenced to death two terrorists and immediately carried out sentence. All while our nut-less wonder of a president vacations and golfs. I can no longer hold ill feeling about our president as he came into office as a turd and will leave office the same way. A monkey dressed in silk is still a monkey. Nothing racist here, just an old saying.

The American people are the fat, lazy, arrogant and ignorant ones who allowed this to happen not once, but twice. Their accomplice was the mainstream media who failed to do their jobs and continue to support the administration.

Isis is an evil that needs to be exterminated. Period. The problem is we have the means, but we have a president that will not call it evil. He is naïve, arrogant and ignorant. His lack of omission is putting the country and the world at risk. Europe is almost lost and will see a repeat of the 1940's and its liberation. This time it will be easy. If you associate with ISIS in a positive way-you die...

Looking at one half of Americans, I can sum up my view of them up as Kim Kardashian, Kayne West and Bruce Jenner.

Kim is a talentless segment of society that has never contributed to America and has no talent. Yet she and her family continue to make the news. No substance, no class and yet a media blitz.

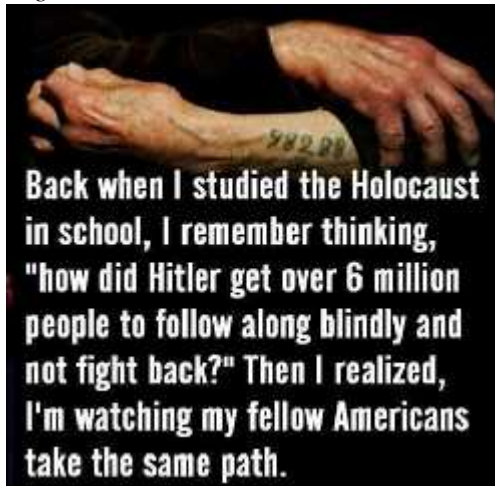

Kayne is a turbo ass-clown that shows the Grammys have no class and no security. After his first stunt with Taylor Swift, he should have been excommunicated. It now seems like the Grammys are a reality show where he gets his 15 seconds of fame.

As for Bruce Jenner, let him cut off his dick in private. I don't need to hear about it. Also Bruce, do not shave your Adams's Apple as it is a warning to men of what you are. You will have a good chance of getting beat to death the morning after should your unsuspecting male partner find out too late...

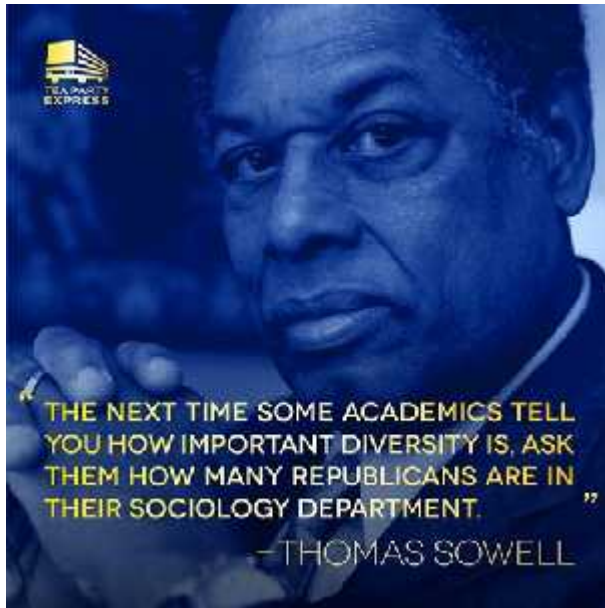

Further, liberals and democrats will go to the grave before they admit the error of their ways. Their arrogance is unsettling to put it nicely. The rest of the world sees the current administration and their lack of standards, integrity and intelligence. We are the world's policeman and we have turned our back on the world.

This experiment with president Obama and his generation is a clue to what a lack of parenting and tough love will do to our society.

I have always believed in public service before going to college. Kids should serve in law enforcement, fire, military or the Peace Corps. They learn valuable lessons about the real world, people and about the importance of being a team and giving back. They are taught many disciplines in the service that many parents fail to get across to them in their younger years.

Instead we feed our kids into liberal colleges where democrats hide out and profess their knowledge of the world they never experienced. They spew falsehoods of how the world should be. An academic without experience is only half a teacher.

This current generation lacks that any type of selfless service and they are all about themselves and what they can get out of life. President Obama is a prime example. He is clueless as is this generation and his actions dictate it. He takes selfies while there are larger problems to solve. The rest of the world is a great deal more mature and sees the spoiled

child in him, his staff and those that voted for him. He surrounds himself with people that are takers and not givers.

I see this in most democrats, liberals and Obama voters. It is not about what is good for the country, but what they can get for themselves. It is what will destroy our country from within.

In the end, if we change our kids for the better, we have a chance of surviving as a nation. If we do not, we will be consumed and replaced.

My only thanks go to those that gave us a constitution who build a structure to contain such ignorance and arrogance. Obama has push the limits of the constitution and the American people are pushing back. Liberals and democrats will lose when push comes to shove. The media is finally starting to shift, but they are way behind the power curve...

**ISLAM AND THE CRUSADES:**

If you want to educate yourself about Islam and the crusades, you can visit the below site which is one of many:

<http://www.catholicculture.org/culture/library/view.cfm?recnum=4461>

The president gets it wrong again bringing up the false history to support his love for Islam. Islam lives by the sword, literally. All I can say is let the battles start today when I am still young enough to serve.

**President Obama says: "Better than Visa, MasterCard or American Express. I use it proudly and I use it often!"**

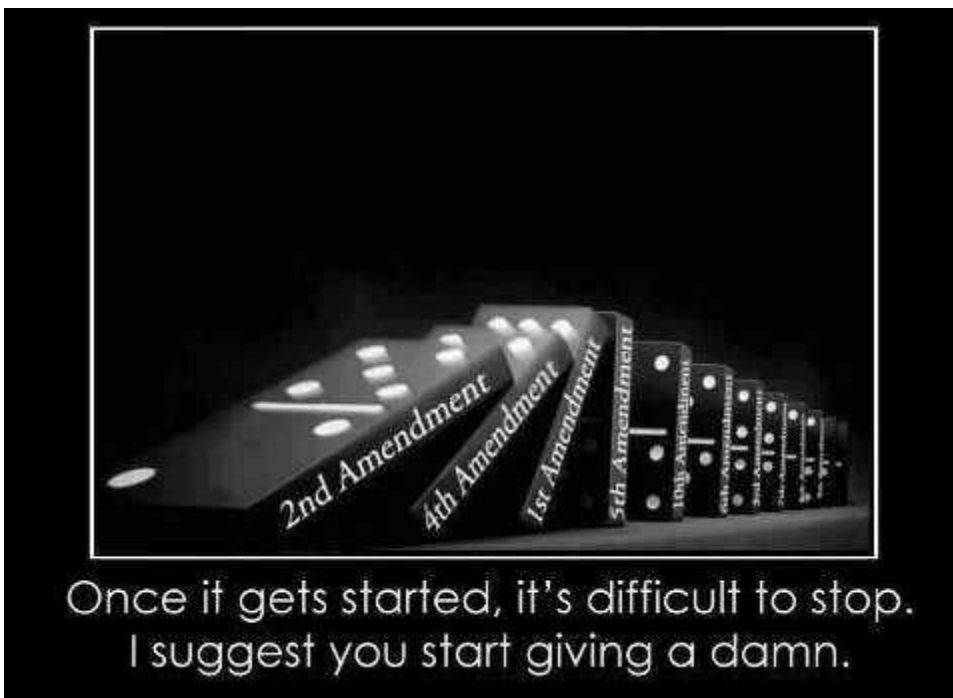

"I love my Race Card. It comes in handy whenever I find myself in some mess I've made. I just bring it out and the mess is overlooked. In fact, there's no limit on how many times I can use it. I highly recommend the Race Card. Don't leave home without it."

## **NEW SHOOTERS CORNER**

If you worry about slowing down a class from a major instructor, then start with private lessons from a local LE officer or reputable trainer.

Many times new shooters lack the confidence to attend a major name class and a few hours of pre-work will make the shooter more competent and confident.

Simple items like:

- Load Procedures
- Unload Procedures
- Moving from your vehicle to the firing line with a weapon
- Correct holster/mag pouches
- Equipment to bring to class

Good instructors will have their own system to show you and it should not vary too much from what you learned from your local trainer. With that, after the course, take what information applies and what does not and use it accordingly.

Next, don't make modifications to your firearms based on internet commandos. Your weapons were designed a certain way to function reliably. I have watched many a student modify their firearm into an unreliable state.

Finally, our combination classes of one day rifle and one day pistol are the best classes for the new shooter to attend. The instructor-to-student ratio is the highest of all classes.
