OCTOBER 2015

INFORMATION LETTER/UPDATE:

MONTHLY INSPIRATION

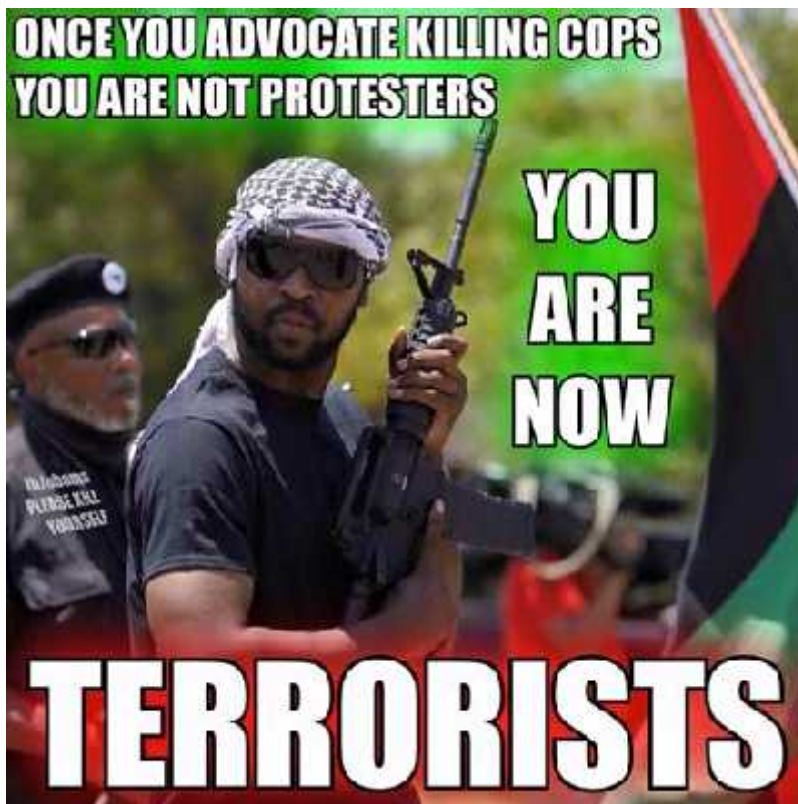

Americans need to hang tough and weather this liberal storm of BS that has been plaguing our country. It will come to end shortly and conservatives need to remember that when you do not vote, you do not have a say in the system.

MONTHLY PERSPECTIVE:

Congratulations America, we have another home grown terrorist party, "Black Lives Matter."
They have taken on a hate filled agenda all on their own

RADICAL ISLAM

On purpose or by design, Islam is being spread throughout the world by the “refugees” that are being pushed out of their countries. They too weak to fight for their country and stand up to the evil of ISIS. Refugees by their physical export, their religious ideology will be spread throughout the world.

We are allowing this and more to the point, liberals and democrats are allowing this. By not policing the world and creating a “vacuum” of authority, we allow this disease to spread and mutate.

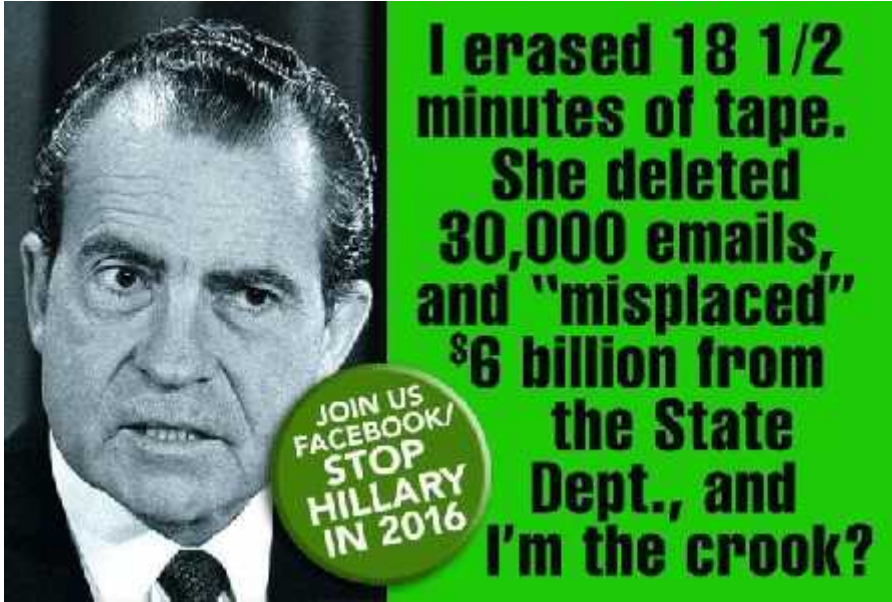

**Have You Noticed
That Refugees
Aren't Fleeing To
Muslim
Countries ?**

Liberal Tolerance

Liberal tolerance and arrogance allow babies to be butchered, criminals (Hillary) to run for office and no oversight to be allowed in the federal government. The federal government has become fragmented and lost its purpose, which is to protect and serve the American people. Instead, it is seeded with liberal agenda Czars that promote their fantasy land view of the world instead of the reality it is. We Americans are paying for that foolishness.

The two ass-clowns (pun intended) below are freaks. Sorry, they are not normal and if you cannot see that, you are warped. My tolerance only goes so far.

**These are the people that
are offended by your
Southern Heritage.**

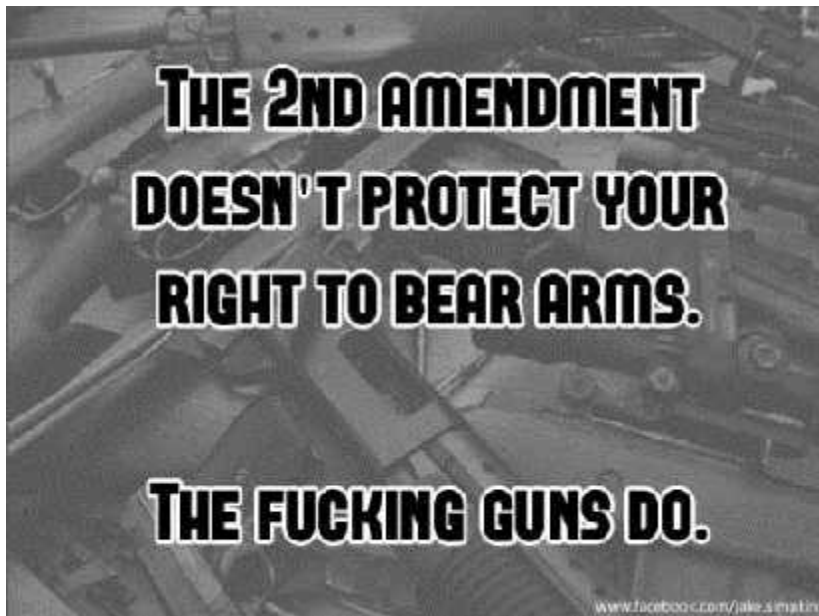

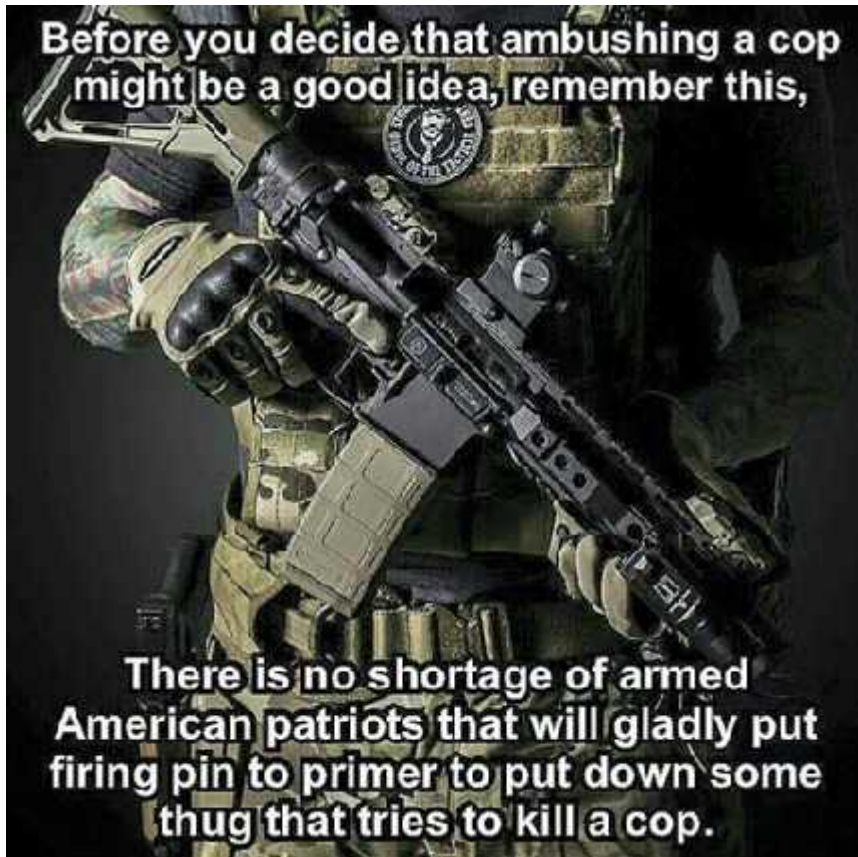

Now Frito Lay is making "Queer" chips with their Doritos. Enough is enough and it is time for conservatives to push back. Maybe an economic boycott is in order.

Jorge is another liberal ass-clown protected by the media.

CSAT Javelin

Dave Montana is a CSAT instructor who lives and works in Houston. He approached

me with the concept of building an ultra-lightweight rifle. I gave him my input and the Javelin is what he came up with. His prototype has over 10,000 rounds through it with no issues and is being tested by a LE agency.

I purchased mine and fired sub-minute groups at 100 yards with select ammunition using an 8 power scope. The reason why I purchased it is that I wanted to be an average customer and know that the rifle would perform as advertised. Especially if I put the CSAT name on it.

Dave will warranty the work and more stats can be found below:

<http://www.hunterrifleworks.com/csat>

If you want a lightweight rifle for yourself, your wife or kids, this is a great rifle. I had Dave add three things to the basic configuration. First, he put a zero stop on the right hand side for right hand shooters so you can wrap your finger around it as a reference point and help pull the rifle back firmly into your shoulder. It can easily be reversed for lefties. He also attached a plate for flashlight. Finally, in the grip will be the CSAT sight tool.

If you have any questions on the rifle, feel free to give me a shout.
