**DECEMBER 2016**

**INFORMATION LETTER/UPDATE:**

**New Article: TBD**

**MONTHLY PERSPECTIVE:**

**IN GENERAL**

## **THANK YOU, PATRIOTS AND**

- ) Julian Assange/WikiLeaks staff**
- ) FBI Agents who kept pushing the fight against a corrupt boss.**
- ) And any other Intel guys who helped show the world how corrupt the Clintons/Democrats are.**
- ) The American People who said enough is enough**

**Your vote did count. Be proud. You took action against the criminal government, media and the corrupt politicians that have used America like a doormat on the bathroom of life. We have endured much and watched corruption and incompetence permeate all levels of our government.**

**In any construction remodel job, you must demo (demolish) the old before you can begin with the reconstruction.**

**The world isn't falling apart,  
the veil of the world wide  
corruption is lifting.**

**Replace all the CZAR's and infrastructure that has poisoned our government agencies.  
The head of DOJ and FBI should be first to regain credibility.**

**bunbury**  
@bunburyers

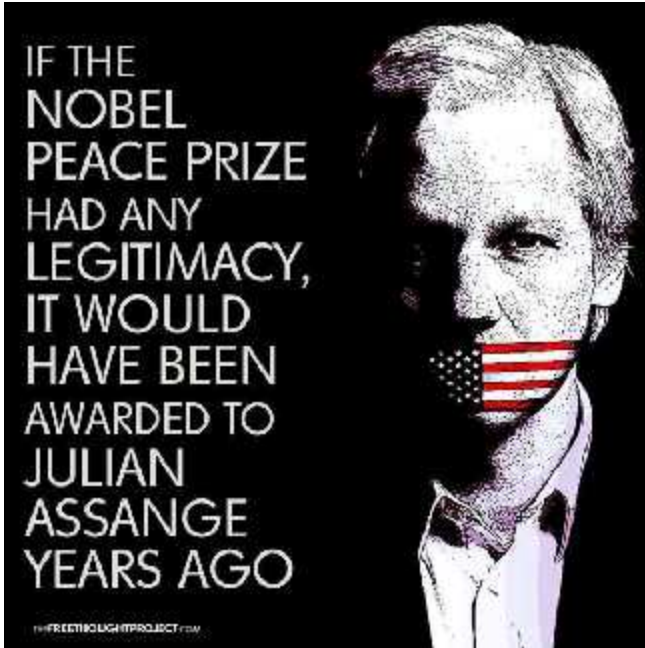

It took FBI Director Comey's team  
1.3 years to review 55,000  
Clinton emails.

They just took 9 days to clear  
through 650,000.

**Begin investigations that were covered up and start new ones on the corruption that has permeated the government for the past seven plus years. Then start putting people in prison.**

**Next, start getting people back to work and off welfare. If they don't want to work, let them starve.**

**Further, cut federal funds to liberal universities and colleges. No longer allow them to spew their bullshit. Cut tenure out for professors. Either perform or go away. Nowhere in the business world do you get to keep your job if you do not perform.**

**Have the FCC investigate the liberal and biased media. Use whatever tools necessary to clean them up if they will not clean themselves up. They played a dirty game and now it is time to pay....**

**James Woods**   
@RealJamesWoods

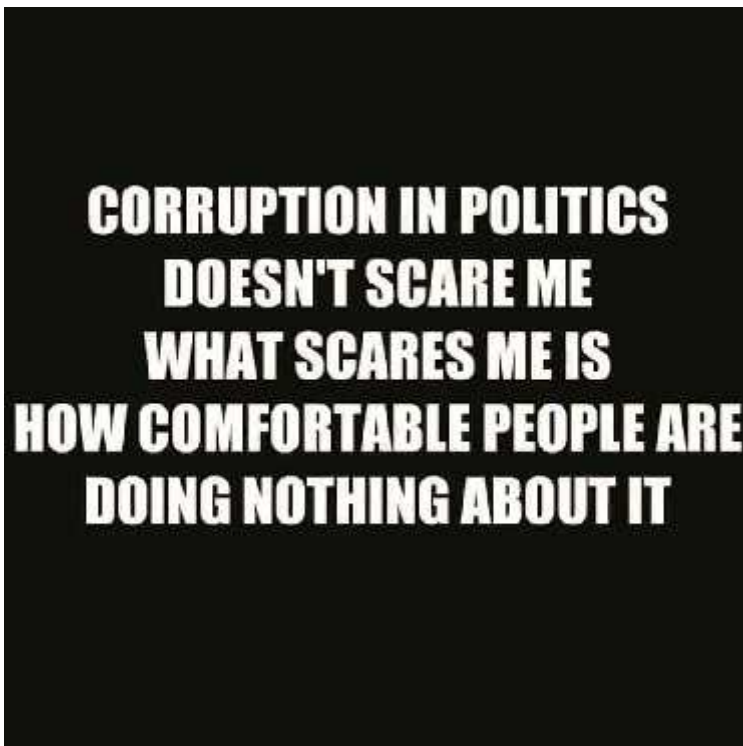

It's truly astonishing that some guy hiding in the Ecuadorean Embassy is doing more for TRUTH in this election than all the American press.

**In short, anything you do will be better than what we have had. Attack in all directions and channelize the talents of the numerous great Americans that inhabit our country and turn this ship on a dime back in the right direction.**

**Finally, the fight must continue as one-half of our country is mentally retarded. President elect Trump should appoint independent prosecutors to investigate all the scandals that have been ignored over the past eight years. Only then can these wounds be closed and America move on. If he does not, he is silently consenting to their corruption.**

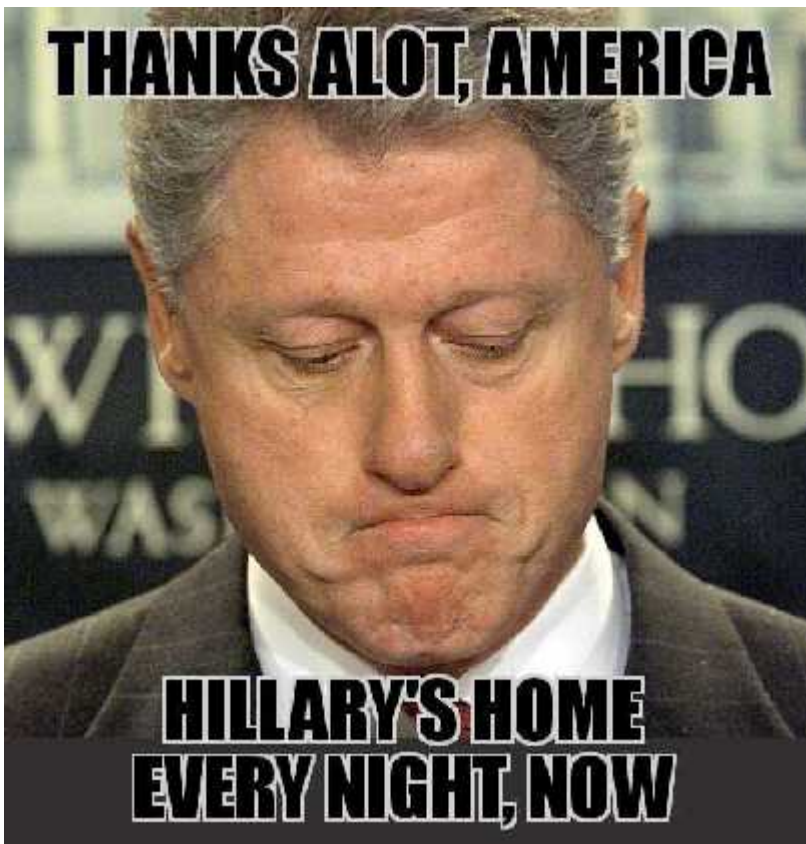

## **ISLAM**

**Goat humpers beware. Your days are numbered.**

## **POLITICS**

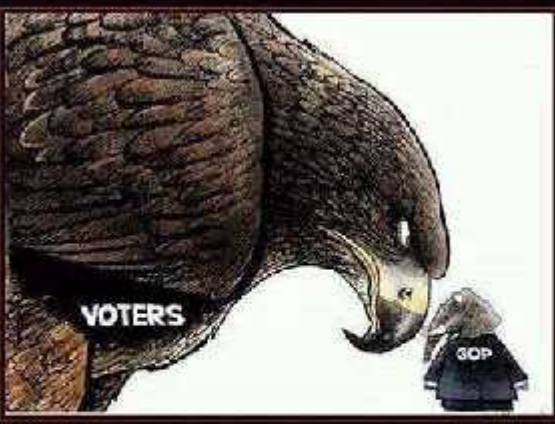

**BUTTHURT IS  
NOT COVERED  
UNDER  
OBAMACARE**

**Dear GOP...**

**Don't assume that it's  
just the Democrats  
we are watching...**

**2nd AMENDMENT**

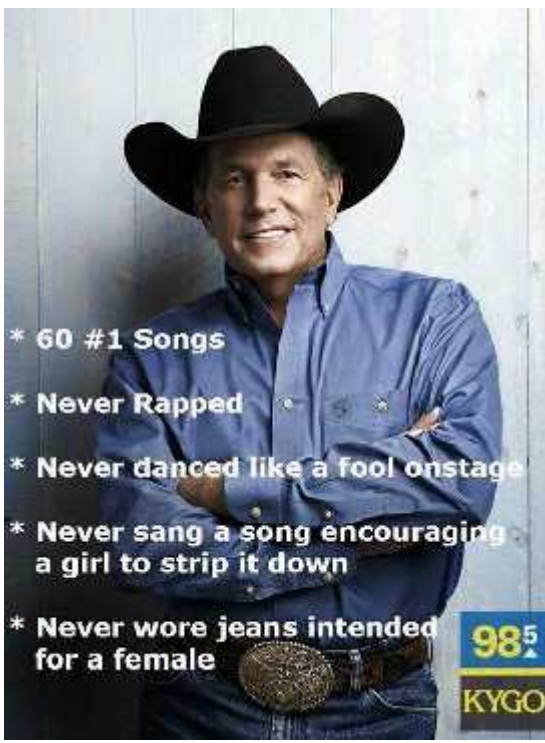

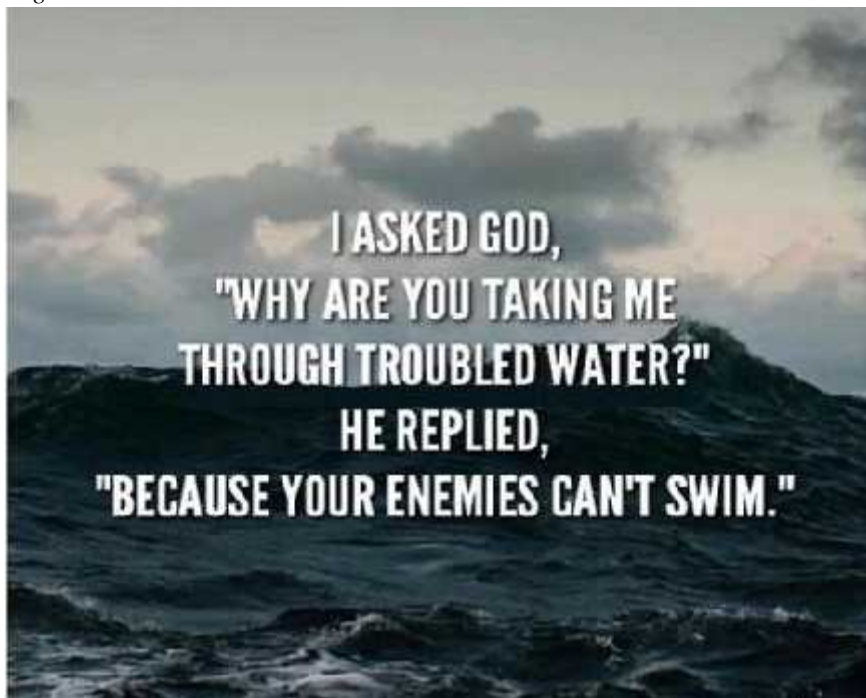

**JOIN THE NRA.....and help shape their future and ours.**

**MOTIVATION**

**On a lighter note:**

### TRAINING NOTES

**EXTREME PISTOL** is a class I will be adding in 2017. It will focus on polishing mechanics of pistol shooting while engaging distance targets from ranges of 25 to 200 yards. Video will be used to show the student the finer points of their shooting plan and we will work in both a static range and field environment. This class is applicable to anyone wanting to work on their distance skills or just polish up their shooting plan. It is good for pistol hunters as well.

I have had multiple requests to run **Urban Marksman/Sniper classes**. If you are interested, bump me and I will get some on the books.

### USE OF VIDEO DURING CSAT TRAINING

**We encourage the use of video for shooting training. To preserve the privacy of students at CSAT, the use of video can be curtailed by the instructor. While we routinely use video to critique pistol students and educate instructor students on how to diagnose shooter problems, we control the video. I don't give it out for several reasons.**

**The first reason is that I would need every student's permission to do this. Next, it would be time consuming to edit the work.**

**Much of the video I see taken from Go-Pro's is of little training use and more action guy shots and look at what I did. It does not capture the mechanics of the shooter as seen from the side.**

**We have many students that do not wish to be videoed. I will respect their wishes. If you wish to be videoed, bring your own camera or IPAD so you control the content.**

**Further, if you unfamiliar with your video equipment and burn training time trying to get it set up, you will be asked to leave it in your car. In short, practice with it beforehand.**

**Before you video at CSAT, ASK. If you do not, we will take appropriate action.**

**RANGE UPDATE:**

We put in a "walk back" range for AIT classes. It is an easy to use eight lane range that you can simply shoot and paint steel. It is handgun only and will be used for other future classes as well. It is located in the O Course area.

**CLASSROOM/ LODGE:**

None at this time.

**EQUIPMENT:**

**Robar** and Freddie Blish produces the CSAT Sight Tool and I am adding them to the front of my web page. Stop struggling to find the proper tools to adjust your irons or optics. It available in one tool and fits in the pistol grip of your AR.
