# CSAT, LLC

**NOVEMBER 2016**

## **INFORMATION LETTER/UPDATE:**

**New Article: TBD**

### **MONTHLY PERSPECTIVE:**

**IN GENERAL**

## **VOTE**

**Voting is the last chance to change the way America is doing business. If you don't vote, you are part of the problem. If more of our country wants handouts without working for it, then our country will slide deeper into mediocrity instead of being the world leader we once were. The choice seems to be "Evolution or Revolution."**

Voting is the last peaceful way to change our corrupt government. The pattern and continued corruption in our Federal Government is unprecedented. I saw this coming when President Obama appointed all his "Czars" early on. He stacked the deck with loyal anti-American followers who have enabled the corruption to continue. This coupled with a sell-out media is compounding the problem.

When our DOJ and FBI are corrupt, there is no federal law or order. The states must be independent and strong.

I never believe the mainstream media. I quietly watch and see what will happen. If a majority of Americans votes for a known criminal whose husband is a sex offender, we are on a path of destruction. This says that they don't care about civility, morality or doing the right thing. When the mainstream media supports this, they are as corrupt as our government.

What can you do? First, don't stress. Self-prepare. An armed and trained American is worth 100 worthless ass-clown liberals/democrats who will not stand by the security of our country by supporting law enforcement or the military. If you self-prepare, you are channelizing negative energy into a positive action. This has been a mental drain for me as well.

If you own a gun, learn how to safely use it and maintain it. Stock up on ammo now while you can get bad. The worse thing that can happen is that you have ammo to practice with for a few years.

**Further, we are not isolated on this planet. The rest of the world is looking at us to see if this concept of "Democracy" will work. Right now, it is failing as the American people may have become too fat, lazy, ignorant and apathetic see democracy through.**

**I for one believe we have a vast population of constitutionalists who are sitting back and watching for a tipping point. This is okay, but they need to be organized to be the most effective. People need to choose sides and this includes law enforcement and the military. Many swore oaths to defend the constitution.**

**I see many organizations such as the "Oathkeepers" starting up, to include State Militias. With the volume of information available and the pattern of conduct, the Federal Government has become corrupt. President Obama has seeded corruption in all areas of our government with his evil minions.**

**How do we stand against this? I will write more after the election and share my thoughts. It begins with the states standing strong against the Federal Government and reminding them they are a guest in each individual state. This may include training and organization of State Militias to help protect the state and augment law enforcement in times of need and natural disaster and from federal intervention.**

**When you allow the Federal Government to have a National Guard and Reserve presence, you have allowed them to have a toe hold in your venues.**

## **ISLAM**

**Finally, I had the pleasure to work with and train some law enforcement officers from up north. They are great Americans. They let me know about the Muslim/Islamic problem and the sometimes masses of 100,000 or more communities that are in their areas.**

**America was made great by those that sacrificed sometimes all that they had to get here and start a life with little or nothing. Now our government and companies bring in masses of people to work and suck off the government tit. Companies are subsidized by the government to do this and when they fire ½ of their work forces for being worthless, the government picks up the tab and takes care of them.**

**The ones that are fired are now not happy with all the freedoms and entitlements and want to transform America to resemble the shithole they migrated from.**

**One day we will have to do a cleansing from within, a colon cleanse of America...**

**Hillary Clinton got \$8 million for hers.**

**That's \$20 million for the memories of two people, who for years have repeatedly testified, under oath, that they couldn't remember anything.**

I don't have much use for entertainers and in the case of this nasty cunt, we as Americans should financially crush them in the same manner fans are doing to professional sports. Until

## MOTIVATION

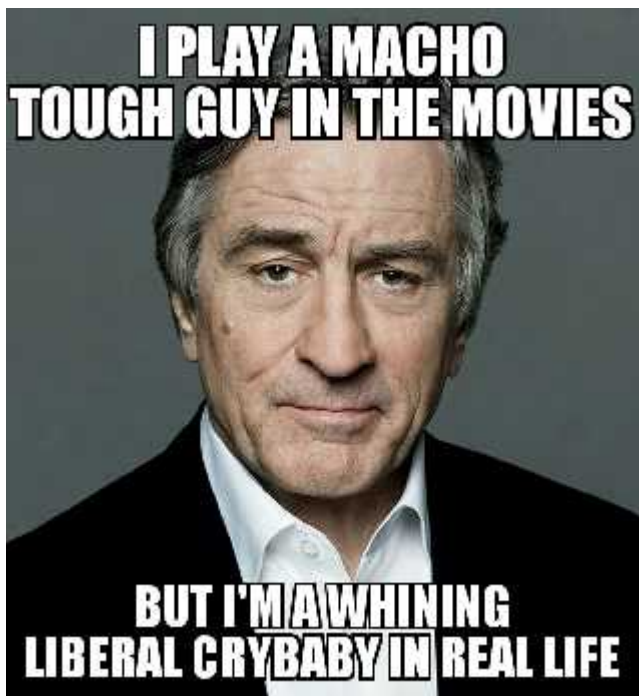

### 7 Cardinal Rules For Life

- 1) **Make peace with your past**  
so it won't disturb your present.
- 2) **What other people think of you**  
is none of your business.
- 3) **Time heals almost everything.**  
Give it time.
- 4) **No one is in charge**  
of your happiness. Except you.
- 5) **Don't compare your life to others**  
and don't judge them, you have no idea what  
their journey is all about.
- 6) **Stop thinking too much.**  
It's alright not to know the answers.  
They will come to you when you least expect it.
- 7) **Smile.**  
You can't own all the problems in the world.

**On a lighter note:**

### TRAINING NOTES

I will be putting an **Advanced Live Fire Instructor Course** on the calendar shortly. I put the basic outline together for a repeat law enforcement agency this summer and I think it may replace my Shoot House Instructor course. I can still do the Shoot House Instructor on the road, but if you want to learn all the live fire drills we teach, you will in the short term, have to come to CSAT.

The flow will look like this:

- Overview
- Range Fire Support Drills
- Single CQB
- Two Person CQB
- Team CQB
- Hallway Scenarios
- Corner Clears
- Forward Fire and Maneuver
- Lateral Fire and Maneuver
- Window Ports
- And of course, Live Fire Medical Scenarios

I will take 20 in the class and you will be broken down into to instructor and operator team. If you are not supervising/managing a drill, you will be executing the drill as an end user.

The final day will be review of all the drills start to finish. Everyone will be tasked multiple time to run, and safety live fire drills.

## **UDC2**

We are considering offering a UDC2 with the option of white light or NVG or both.

More to follow...

### **RANGE UPDATE:**

None at this time

### **CLASSROOM/ LODGE:**

None at this time.

### **EQUIPMENT:**

I have switched my mags to Lancers and have spare Mag Pul mags. They make great ammo reservoirs for bolt gun ammo. Instead packing ammo in a box, just fill the mag and use it to top off your bolt guns.
