Tactical Thoughts Worth Passing

MONTHLY PERSPECTIVE:

I am starting this letter two days before the inauguration and I am amazed at what I see when I look around at our country and the media. I tried to stay positive, even after the last eight years. I knew when President Obama was elected that it would be a shit sandwich.

I put my head down as did many Americans and prepared to wade through the swamp of despair for his two terms. Even though he sold more guns to Americans than any other president in history, the damage he did was unparalleled to America and the world.

What really made me stand up and take note was all the dumb MF's who voted for him a second time. We have truly become a country full of ignorant, lack-luster people who feel they are victims. Also, the media supported this loser and need to have their nuts cut off for all the BS they are spewed.

The same goes for all the "entertainers." I will not buy a song or spend a dime on anyone who was vocal and condemned or refused to support the better candidate. Our country is still a mess with one-half thinking that Hillary Clinton could do something positive in her life despite a well-documented history of corruption.

With all the last-minute pardons, it shows the true colors of Obama and the liberal agenda. His presidency has tried to force the BLM and LGBT movements down our throats. Race relations have hit an all-time low as a direct result of reverse racism from this administration. This can be seen in Chicago where the police probably have a hands-off approach to the

areas that don't want them so the savages can kill each other wholesale. Maybe we should just donate some ammo and guns so they get it done faster.

If I were to use one word to describe many of the problems, it would be "arrogance." We are told we should put difference aside and look at liberals as fellow Americans with a different point of view. Fuck no. They are bent on destroying our country and to turn the other cheek bullshit will only hasten our destruction. They are mentally ill/retarded at best. Further, we should cut money to liberal universities that promote millennial retardation.

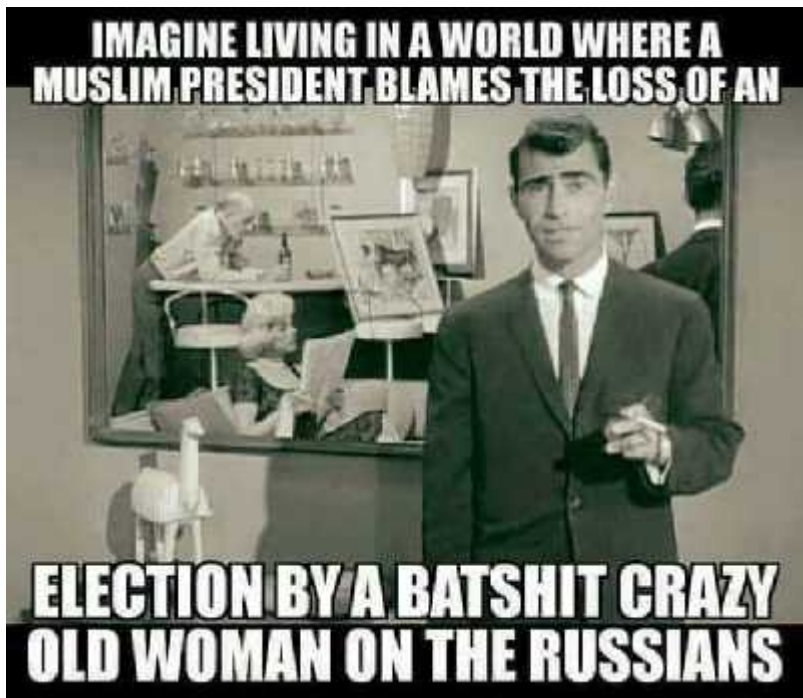

I don't dwell on this stuff and try not to hate. I also don't have to care about worthless human beings. Nor do I have to associate with, hire or even acknowledge their existence other than understand they are a danger to humanity. As for the entertainers, boycott them. The same applies to the media. If no one advertises in their mediums, they will lose money.

In the end, I have little use for liberals, BLM, LGBT, entertainers and no time in life college kids who are all self-serving and have embraced the "I am a victim" mentality. I don't have to like you or even acknowledge you-this is America and I can have an opinion. I will be polite, but don't fuck with me as my tolerance for your sniveling bullshit has worn out. I won't go out of my way to hate you as you do a good enough job bringing it on yourselves. I simply don't have time for you.
