# CSAT, LLC

**JANUARY 2018**

**TRAINING UPDATES:**

**GENERAL:**

**To all CSAT supporters, thank you for the great year.**

**WELCOME TO ANOTHER YEAR OF SWAMP DRAINING:**

Liberals and Democrats are the new Nazis. They represent the politics of division and hate.

No liberals voted for the tax cut bill. They are against the American working class as well. Pure evil.

*December 27, 2017*

*Page 2*

Implosion is kind word to describe the liberal lunacy that is coming back to haunt them. Hollywood ass clowns should do their job, entertain and keep their mouths shut. Too many are coming out too late with their sexual accusations. Why did they not take a stand at the time? In a word, cowardice. They put their careers and money ahead of their morals and let others become victims.

As for the media, they have become the enemies of America. This is a dangerous time when our media embraces, hate, lying and deception with little accountability. Standards need to be implemented and adhered to. People need to go to jail for printing lies and civilly sued as well.

Finally, to professional athletes, STFU and play. Stand for the National Anthem or get the hell out of our country. We don't want to hear about your ignorant political and social views from you PPA-Pampered Pussies of America.

Be an American who participates in making America better.

Keep your skills sharp.....

#### **TRAINING:**

I am working on the winter/spring schedule. If you have special class requests, feel free to contact me. I do save time slots for special classes.

**I will be adding a second Live Fire Advanced Hostage Rescue for LE in April. This will include 4 Shoot House Instructor slots.**

#### **EQUIPMENT:**

**Ruger American 7.62 x 39**

December 27, 2017

Page 3

First, I like the rifle for several reasons:

- ) It is short
- ) It is light
- ) It can take box magazines of 5, 10, 20, 30
- ) It is simple and reliable
- ) Ammo is readily available
- ) Great starter for a wife or kids because of the light recoil

The above rifle is topped with a 1 x 6 strike eagle. While I have only engaged 3 pigs with it, my opinions are varied. Two of the three pigs took solid hits center mass with hunting bullets and ran off. The third put its head down (below) and moved on me from about 5 yards. A Federal 124 ball round in the head anchored it.

While I believe it is a good rifle to have in your hand, shot placement will be critical when hunting.

We have a severe pig problem in our bottom and if I want to get a consistent one shot stop, I either use a .45-70 or a .308 with some Hornady SST. They will run off and die from the 7.62 x 39 round, but you have to be surgical to anchor them. Or use a Mak 90 clone and jump in the brush with them on semi-auto...

Page 4

I use the tip of the post for 100, second line 200, third line 300 and it matched Federal Fusion ammo.

### IN CLOSING

Thanks and we look forward to seeing you on the range.

Paul R. Howe
